

### Questions Re: RFP 10112-17 Community Needs Assessment

- We notice that this assessment has been completed by another firm in the past. Is the incumbent firm eligible to bid on this RFP?
  - A. Yes, the incumbent is eligible to bid.
  
- The RFP mentions gathering data on economic and demographic trends, including poverty statistics. Based on the Partnership Data Tool attached to the RFP, it looks like you have already compiled some data on economic and demographic trends. How do you prefer we prioritize additional data collection and analysis in our scope as compared to focus group and survey data collection?
  - A. Focus groups and first hand-survey data collection have priority.
  
- What is the budget range you anticipate for Year 1 of this project based on prior spending or current budget allocation?
  - A. The budget range for this project will not be provided in an effort not to skew the bids.
