INTRODUCTION

Community Action Agencies have been key players in the war on poverty since their inception in the 1960s. Because they work directly with low-income individuals and families in dealing with the problems of poverty on a daily basis, Community Action Agencies are uniquely qualified to examine the needs of communities and individuals as they strive to eliminate poverty. In most cases, Community Action Agencies provide a wide range of services that address a variety of poverty problems.

Why, then, does poverty continue to affect so many Americans? How can EnAct develop and improve strategies to be more effective in helping people move out of poverty? Before answering these questions and deciding upon an approach, EnAct must determine what NEEDS exist in Boone, Clay, Fayette, Kanawha and Putman. Before determining a plan of action, EnAct Community Action must develop a deep understanding of the current conditions, likely future trends, and issues of greatest concern within the county.

EXECUTIVE SUMMARY

In April 2014, EnAct Community Action enlisted the assistance of Kingery and Company, LLC, to conduct a needs assessment in Boone, Clay, Fayette, Kanawha and Putnam Counties. The project included surveying residents, interviewing community stakeholders, conducting secondary data research, facilitating an analysis retreat, and providing a summary report with key findings and recommendations.

Goal:

Plan and conduct an all-inclusive Community Needs Assessment for EnAct, ensuring compliance with the Community Services Block Grant program requirements.

Objectives:

- Provide a broad view of demographic and economic changes, region and county infrastructure, and community-wide changes.
- Focus on providing a localized assessment of needs by reporting county level data.
- Collect *primary* data by gathering external community feedback through surveys and interviews with key stakeholders, etc.
- Collect *secondary* data by researching national, state and local data resources, and utilizing EnAct's customer outcome tracking system.
- Facilitate an analysis process that identifies potential causes of poverty.
- Mobilize EnAct and community resources in action plans that address priority needs.

Coverage Area: Boone, Clay, Fayette, Kanawha, and Putnam Counties, West Virginia

EnAct Agency Overview:

EnAct Community Action is a West Virginia Community Action Agency serving as the engine for action in offering a wide variety services to the low income residents of Clay, Boone, Fayette, Kanawha, and Putnam Counties.

EnAct Mission: EnAct Community Action will focus on the unique social planning responsibility of community action agencies by identifying the causes of poverty in the communities we serve, developing solutions, building active partnerships, and lifting low-income individuals and families to their fullest potential.

EnAct Community Action Programs:

- Education
- Emergency Assistance
- Comforts of Home
- Case Management
- Right from the Start
- Employment
- Nutrition

Community needs assessments can and should be more than just a gathering and analyzing of data; they can also be a basis for **creating change**. A comprehensive community-based needs assessment can help an agency address community and family needs by providing a snapshot of the community and families within that community, including their economic well-being, educational status, health, and welfare. A comprehensive assessment can provide important community information regarding the work of other agencies, or what organizations may be working on, to address particular issues, and where gaps in community services lie. It **provides a mechanism to meet and develop partnerships** with other community groups interested in strengthening services to citizens in the area. Finally, a comprehensive community needs assessment can help an agency in its planning process by providing the foundation for strategic and operational planning, assessing the agency's impact on meeting the needs of the community, determining what programs or strategies may have become obsolete, and deciding what strategies may provide new opportunities for the agency and the community.

A multi-level community needs assessment approach was used to provide guidance in the planning process for improving services and programs to **combat poverty** in Boone, Clay, Fayette, Kanawha, and Putnam County. The comprehensive needs assessment can be used for a variety of situations, including the following:

- Guide board governance in sound decision-making
- Create opportunities for community buy-in to the agency's planning process
- Create opportunities for new alliances and connections with new partners
- Form successful strategies
- Ensure services meet the current needs of the community
- Build credibility
- Provide a foundation for pursuing new/different funding
- Guide staff training and educational planning
- Enhance EnAct's capacity to respond to change
- Generate authentic input from stakeholders
- Indicate causes as well as conditions of poverty

Assessing Needs - The Four Step Process

Step One: Develop a Plan

The first step with any project begins with development of a plan, a plan that maintains focus on the big picture all the while accounting for every detail. A **work plan** comprised of tasks, timelines, responsible persons, and progress updates served to guide the needs assessment process.

As with any quality planning process, it was critical to bring the right people to the table. Thinking beyond EnAct staff, it was important to engage members of the community in the

needs assessment process. This took place in the formation of a **Needs Assessment Steering Committee** comprised of internal staff (management and staff) and external community stakeholders. External stakeholders included representatives of Regional Family Resource Network, Fayette County FRN, UKVEC, Madison/Danville Jaycees, United Food Operations, Workforce Investment Board, Thomas Health Systems, First Baptist Church, Agape Cloak, Charleston Police Department, Prestera Center, City of Hurricane, United Way of Central WV, Charleston-Kanawha Housing, and Southern Appalachian Labor School. The Steering Committee served to set direction, assist with the collection of primary data, monitor progress, and analyze results.

Step Two: Collect Data

Since EnAct is an anti-poverty organization, it was important to use the community action areas as the foundation on which to build the needs assessment. They include the following:

To remove obstacles and solve problems that block the achievement of self-sufficiency, the statewide needs assessment explores the eight community action poverty indicators.

1. To secure and retain meaningful employment.
2. To obtain and maintain adequate housing and a suitable living environment.
3. To benefit from accessible and affordable healthcare.
4. To attain an adequate education, with particular attention toward improving literacy skills of the low-income families.
5. To ensure proper nutrition by encouraging healthy eating habits.
6. To make better use of available income.
7. To utilize available transportation options.
8. To obtain emergency assistance to meet immediate and urgent family and individual basic living needs.

With guidance from the WV Community Action Partnership, the state association representing 16 community action agencies, and the WV Office of Economic Opportunity, the following poverty indicators served as our primary and secondary data collection issue areas.

Poverty Indicators:

- Health
- Employment
- Transportation
- Education
- Use of Income
- Housing
- Nutrition
- Emergency Situations

Primary and Secondary Data Collection

After determining the poverty indicators, our focus shifted to the identification of primary data collection sources. Primary sources included gathering quantitative and qualitative feedback through surveys and interviews.

Survey Results

The Needs Assessment Steering Committee identified survey distribution partners throughout Boone, Clay, Fayette, Kanawha and Putnam Counties. As a result, there were 1,459 needs assessment survey respondents, with the largest segment of respondents ages 24-44. The majority were female (73.8%), White (89.2%), with a monthly household income of \$2,001+ (41.1%) listing high school/G.E.D. as the highest level of education

completed 29.5%). Survey respondents were asked whether a key area or poverty indicator was an issue for them and/or their family.

The overall ranking of the eight key poverty indicators along with the top three reasons identified for each was as follows:

1. Health – 28.8%

The top three reasons identified were:

1. Lack of dental services
2. Lack of vision services
3. Affordability of prescription drugs

2. Employment – 30.6%

The top three reasons identified were:

1. Lack of employment opportunities
2. Lack of good-paying jobs with benefits
3. Lack of reliable transportation

3. Use of Income – 21.1%

The top three reasons identified were:

1. Lack of knowledge on how to save/invest money
2. Lack of knowledge about money management, i.e. credit card debt, budgeting, checking accounts, etc.
3. Lack of knowledge about addressing credit issues

4. Housing – 23.0%

The top three reasons identified were:

1. Affordability of rent/house payments
2. Affordability of additional housing costs, i.e. utilities, insurance, deposits, etc.
3. Lack of affordable/suitable housing

5. Transportation – 25.0%

The top three reasons identified were:

1. Cost of owning and operating a vehicle
2. Lack of public transportation
3. Lack of credit to buy a vehicle

6. Education – 16.9%

The top three reasons identified were:

1. Lack of vocational skills or training
2. Poor communication with teachers, principals, counselors
3. Availability and/or location of classes

7. Nutrition – 26.5%

The top three reasons identified were:

1. Not enough income to cover food cost
2. Not eligible for food stamps
3. Lack of transportation, i.e. to grocery store, food pantry or other food resources

8. Emergency Situations*

The top three reasons identified were:

1. Alcohol, drug abuse and/or gambling
2. Lack of income for utilities/fuel
3. Lack of food

*(NOTE: The format of the Emergency Situations did not allow for a ranking or percentage; rather it asked respondents to *choose the three most important **emergency situations** that may be problems in the area.*)

Community Stakeholder Feedback

The second form of primary data collection came from interviewing community stakeholder representatives from a variety of social service agencies in the region including Salvation Army Boys & Girls Club of Charleston, Fayette County Family Resource Network, Charleston Police Department, WV Department of Health and Human Resources, Regional Family Resource Network, Upper Kanawha Valley Starting Points Family Resource Center and Parents as Teachers, EnAct, and United Way of Central WV. The purpose of these interviews was to identify how other agencies might be addressing the key poverty indicators.

Open-ended questions about each of the key poverty indicators encouraged expression of qualitative feedback. Questions such as, "Is your agency addressing EMPLOYMENT issues in your community and if so, how? The responses in detail are included at the end of each poverty issue as part of the county reports. Overall questions and responses included the following feedback.

What one thing do you like most about your community?

- There is a wide variety of free cultural events available to segments of the community.
- The friendly children & families in my neighborhood.
- The fantastic natural resources - opportunities to hike, bike, walk. Summersville Lake to swim or stand up paddle board (SUP). Okay, you asked the ONE thing - the natural resources available to transform your life.
- Even though drugs touch everyone somehow, the community in a whole believes in the success possible and the potential here.
- Still being mostly rural.
- Communities have a desire to want to work on their problems. All it takes is finding those people and bringing them to the table.
- People care about each other and come together to help those in need.
- The caring community that continues to help others, year after year.
- The strong interaction and communication between agencies dealing with the poverty population.
- Close knit neighborhoods, friendly people
- The people.

What is ONE thing you would change to improve your community?

- Make more youth oriented activities available, i.e. after school programs, weekend events, etc.
- Stop drug use.
- Get folks off the couch and get moving.
- Figure out how to motivate the persons with low self-esteem to fight to better their situations.

- To get the more community resources with the amount of wealth in Hurricane and Winfield I am not sure why we do not have as many resources available to assist those in need.
- Increase funding opportunities for community organizations.
- I would change or improve the community by creating opportunities for children and families. We need good paying jobs and children need adequate child care and after school programs.
- The cost of higher education. I would love to see every high school student have the opportunity to get a college education.
- Increasing knowledge of available services and outreach.
- Improved employment opportunities
- More industry to create jobs.

In your opinion, what would your community look like without poverty?

- From a physical view point the community would be more attractive with the elimination of the deteriorating neighborhoods. Attitudes would be more positive and you would see more people smiling.
- Thriving small city full of kids.
- Children are safe in their homes and communities; caring adults that support productive engagement and citizenship; volunteerism; environmental appreciation; natural resource conservation; defying corporations that use/abuse workers; defying the prevalence of substance abuse for economic gain; appreciation for natural resources; healthy communities (no food insecurities); opportunities for physical activity acted upon; hope for a brighter future.
- Well-functioning families with food, cloths, and a little extra cash for church, school and vacation extras. Not hooked on drugs. Eating with the family and friends not depending on someone else.
- It would be great.
- All 3 counties (Boone, Kanawha, and Putnam) would look different, but would function much more effectively and have resources available to make good, positive choices.
- Children and families would have things they need such as money to pay utility bills, adequate housing, clothing, jobs, etc.
- I feel the crime rate in our community would be less if poverty did not exist. In turn, children could have a much safer and happier childhood. This better start in their lives could transform the next generation into productive citizens in our community.
- Our community would flourish.
- Cleaner neighborhoods, less crime, children playing in parks, safety concerns not an issue, reduced substance use.
- Enriched.

In your opinion, what keeps families in poverty in your community?

- The sense of helplessness and the overabundance of "free" services which make getting out of poverty a less attractive option.
- Lack of motivation from those to get off the social well-fare system once they have received aide. Lack of education. Drug abuse.
- Lack of hope; substance abuse; relying on someone to give them a job instead of creating a job; circumstances that I don't understand - is it laziness? Over reliance on welfare? Disability as a way out of working? Low minimum wage? Generational cultures?

- Drugs have allowed families not to be trained in a good family life. Drugs causes low self-esteem whether the individual using or in the family member. Searching for good paying jobs and getting the education with low self-esteem is very difficult.
- The lack of public transportation to the far reaches of the county can be connect to Huntington and Charleston to increase job opportunities outside fast food or min wage jobs. Also and lack of available community resources to aid families.
- There are so many factors: lack of public transportation, too rural, few resources available to meet needs, lack of employment opportunities, etc.
- Our community is the heart of the coalfields. We need jobs.
- Poor choices such as drugs, lack of education, generational poverty thinking, etc.
- Lack of knowledge of available programs, ineligibility for programs in the area (due to slightly over income, drug use, etc.).
- Lack of education, lack of opportunities.
- Jobs and education.

Secondary Data Collection

Secondary data collection included gathering relevant and current statistics and research from reliable sources such as other social agencies and government entities in an effort to supplement the survey results and community stakeholder feedback. Research on each of the poverty indicators was compiled and is presented in detail as part of the Poverty Indicators sections of this report.

Data sources included:

- Center for Budget & Policy. West Virginia Federal Rental Assistant Facts
- Centers for Disease Control and Prevention
- CFED – Assets & Opportunities Scorecard
- County Health Rankings
- Social Security Administration
- United States Census Bureau, 2008-2012 American Community Survey
- United States Department of Labor
- U.S. Department of Housing and Urban Development
- U.S. Department of Health & Human Services
- West Virginia Division of Local Health
- Wikipedia-Boone, Clay, Fayette, Kanawha, and Putnam County, West Virginia
- WV Bureau for Behavioral Health and Health Facilities
- WV Department of Health and Human Resources
- WV Department of Education
- WV Department of Education, Office of Special Programs
- WV KIDS COUNT FUND
- WV State Police Department
- Zero to Three – National Center for Infants, Toddlers and Families

Step Three: Analyze Data

As part of a one-day debriefing retreat with the Needs Assessment Steering Committee that took place on October 28, 2014, Kingery & Company presented primary and secondary data of each key poverty issue. Using a paired comparison technique, county representatives (EnAct staff and external stakeholder representatives) analyzed the information presented and prioritized the issues that are in **most** need in their community. The top issues per county are as follows:

Boone County

1. Emergency Situations
2. Employment
3. Health

Clay County

1. Employment
2. Transportation
3. Use of Income

Fayette County

1. Emergency Situations
2. Use of Income
3. Health

Kanawha County

1. Employment
2. Use of Income
3. Housing

Putnam County

1. Emergency Situations
2. Transportation
3. Housing

The top issues in the region as a whole are as follows:

Region

1. Health
2. Employment
3. Use of Income
4. Nutrition
5. Housing
6. Emergency Situations

Step Four: Take Action

The report is where it all comes together to tell the needs assessment story that **captures the process, results, and action plans**. The report that you are reading now provides a succinct record of the four step process: 1-Develop a plan; 2-Collect data; 3-Analyze results; and 4-Take action.

The final report was shared with the Needs Assessment Steering Committee in advance of the public release. Steering Committee members were asked to share the report with their own organizations and other groups in an effort to mobilize community resources to address needs beyond that of EnAct. Although EnAct spearheaded the needs assessment project, the agency considers the report as the '**community's report**'. Results will be shared in a news release and

electronic copies will be made available upon request. In addition, the report will be incorporated into the next agency-wide strategic planning process.

"Great presentation! Truthfully, it's always refreshing to get out from behind the desk and have the opportunity to engage with other agencies to see how we all relate to 'the big picture' and how we can work together to address local issues."

Amy Farley
*Youth Coordinator/Program Assistant
Region III Workforce Investment Board of
Kanawha County*

"Participating in the EnAct Community Needs Assessment has been a great process of collaborating with other agencies to identify community resources and the needs that still exist in our region. This collaborative effort has bridged gaps and helped to network needed contacts and resources in both the rural and urban counties served. My agency, Pretera Center, serves four of the five counties, and this has been a great opportunity to share with others all of the many services we provide throughout this region."

Dana L. Petroff
*Director of Addiction
Services, Pretera Center*

"I was asked to help work on the EnAct community needs assessment with Brent Pauley, CEO, EnAct. I really didn't know what to think other than I thought this was going to be a lot of extra work, but I was wrong. We were brought together to brainstorm, help out with surveys and give our opinions from our work experience. It didn't feel like work, but you tell the work was getting done, and we enjoyed each meeting. I think we can thank the facilitator for her great work and her team for pulling it all together, Tricia Kingery and Company. Great job to all."

Captain Kim Mitchell
Charleston Police Department

"I am honored to have been part of the EnAct community needs assessment group. The data that will come out of this assessment will be vital to many different agencies and non-profits. As a partner agency with WV 211 this data will help us see where the unmet needs in our communities are and drive us to find resources for those needs to share with our callers. United Way of Central WV and other non-profits will share this data with their Boards of Directors to help them make decisions about services and funding which will improve lives in our communities."

Barbara Mallory, CIRS
*Information & Referral Director
United Way of Central WV*

EnAct Mission:

EnAct Community Action will focus on the unique social planning responsibility of community action agencies by identifying the causes of poverty in the communities we serve, developing solutions, building active partnerships, and lifting low-income individuals and families to their fullest potential.

EnAct Community Action is a West Virginia Community Action Agency that offers a variety of specific programs and services to assist low-income individuals and families towards self-sufficiency. EnAct Community Action administers emergency, maintenance and developmental programs that are a critical service in developing the framework for individuals and families to achieve self-sufficiency. EnAct Community Action serves the residents of Clay, Boone, Fayette, Kanawha, and Putnam Counties.

EnAct Community Action offers the following programs:

- **Education** - EnAct offers the opportunity to receive training in high-demand vocational fields and assistance in overcoming the barriers to obtaining high quality employment through our "Avenues to Employment" programs. All "Avenues to Employment" programs are completely free to low income participants. "Avenues to Employment" Programs include Nursing Assistance classes, Mining classes, Chemical Operator Classes programs not only assist with education funding, but also in many other areas that affect education such as child care, transportation, emergency support, and any other conditions that would destabilize the families of participants. EnAct partners with other community-based organizations to provide GED and ABE classroom instruction. EnAct can provide school supplies to low-income children whose families are unable to afford them.
- **Emergency Assistance** - EnAct provides assistance to low-income, disabled and elderly persons through the Community Services Block Grant. EnAct can provide direct payments on qualified, eligible customers' utility bills, housing bills, and in some of our sites eyeglass and prescriptions costs. EnAct offices also have, when funds and donations are available, baby items for qualified customers. These items can include diapers, baby food, and formula.
- **Comforts of Home** - This program provides in-home personal care services for the Aged & Disabled Waiver program which includes meal preparation, light house-keeping, transportation for essential and community errands, and social & emotional support. Case management services are also available for assessment, service planning and client advocacy. COH also offers personal care services for private pay individuals.
- **Case Management** - EnAct is committed to assisting clients achieve their goals more effectively and efficiently using best practice service planning and delivery. Case Management Services include: Referral and access, Assessment and service planning,

Implementation of services, Coordination and maintenance, Client advocacy including linkage to services, appeals and conflict resolution.

- **Right from the Start** - Right from the Start (RFTS) is a home visitation program that provides education, service coordination, and support for low-income pregnant women and children up to age one in Kanawha County. Home visits and telephone calls are made by EnAct staff to maintain contact and support. Service coordination is provided by making sure families have the things they need and linking them to community agencies in their area. Education is provided through the Partners for a Healthy Baby curriculum and DVDs. All education materials are provided from the program.
- **Employment** - EnAct offices in Chesapeake and Clendenin serve as Work Force West Virginia satellite sites where representatives from the Regional Workforce Investment Boards, Bureau of Employment Programs, and the Work Force West Virginia Centers work with EnAct staff to schedule clients for needs assessments, job referrals, job training and job placement.
- **Nutrition** - EnAct operates emergency food pantries throughout its entire service area. Staff distributes USDA commodities and supplemental foodstuffs to qualified clients to assist clients in meeting their daily nutritional requirements. Garden seeds are available in growing season to qualified individuals in the spring to supplement their nutritional needs. Staff partner with local agencies to instruct and provide informational pamphlets on how to can and freeze vegetables.

Assessing Needs: The Four Step Process

STEP ONE: Develop a Plan

Kingery & Company along with EnAct management established a Needs Assessment Steering Committee to develop a plan that included setting direction, assisting with the collection of primary data, monitoring progress, and reviewing results.

Needs Assessment Steering Committee Members:

- Brent Pauley, CEO, EnAct
- Aletha Stolar, Director, Fayette County FRN
- Damron Bradshaw, Executive Director, UKVEC
- Joyce VanDale Hill, Boone County Service Coordinator and EnAct FACs Pro Admin
- Lori Tompkins, Vice President, Madison/Danville Jaycee
- Julia Elmore, Family Support Coordinator, EnAct
- Vicki Hudson, Family Support Coordinator, EnAct
- Kay Moffatt, Treasurer, United Food Operation
- Amy Farley, Program Coordinator. Region 3 WIB-KC
- Becky Brannon, VP of Nursing/CNO, Thomas Health System
- Judy Ballard, First Baptist Church Food Bank
- Mary Browning, Coordinator, Agape Cloak
- Captain Kim Mitchell, Charleston Police Dept.
- Dana Petroff, Director of Addiction Services, Prester Center
- Barbie Spade, Family Service Coordinator, EnAct
- Ben Newhouse, City Manager, City of Hurricane
- Helen Estep, CSBG Program Supervisor, EnAct
- Dottie Davila, Family Service Coordinator, EnAct
- Lisa Hudnall, Community Services Director, United Way of Central WV
- Mark Taylor, CEO, Charleston-Kanawha Housing
- John David, Director, Southern Appalachian Labor School
- Lisa Holcomb, Family Support Coordinator, EnAct
- Michele Bowles, Director, RFRN
- Michael Farmer, Program Coordinator of Salvation Army Boys & Girls Club of Charleston
- Melanie Hirst, Director Medicaid Waiver Comforts of Home
- Diane Hughes, UKVEC- Starting Points FRC- Program Director
- Connie Keiffer, Coordinator of Retention and Freshman Advising. Bridge Valley Community & Technical College
- Connie Lupardus (CAEZ of WV) Central Appalachia Empowerment Zone of WV Executive Director
- Barbara Mallory, Information and Referral Director, United Way of Central WV
- Morgan Morris, Registered Nurse, Comforts of Home
- Tamara Rizk, Director Right From The Start, EnAct Inc.
- Krystal Stollings, Director of School Psychological Services Boone County Schools

At organizational and planning meetings, the Needs Assessment Steering Committee focused on conducting a situational analysis that included the following:

1. Orienting the Needs Assessment Steering Committee to the purpose, process and roles.
2. Conducting a media analysis by reviewing newspaper articles that reported on unmet needs.
3. Identifying target participant individuals/groups for surveying.
4. Reviewing **work plan** including tasks, responsibilities and deadlines.

The responsibilities of the Needs Assessment Steering Committee included:

- Attend three meetings (beginning, middle, and end of project).
- Assist in identifying places where the Community Needs Assessments survey might be distributed.
- Assist in providing access to secondary research information (research or data developed by other organizations that already exist).
- Play a key role in reviewing the data collected, determining priority community needs and identifying ways that EnAct and other community organizations might meet the needs. (This took place at the third meeting in the form of a retreat.)
- Be recognized in the report, provided a draft copy of the report in advance of the public release and receive a final electronic PDF version so that they too can share the report with their stakeholders and colleagues.

STEP TWO: Collect Data

Primary and secondary data sources were identified. Primary sources included quantitative surveys, focus groups and qualitative feedback from community stakeholders.

Primary Data Collection

Survey Methodology

A needs assessment survey was developed to garner the opinion of Boone, Clay, Fayette, Kanawha, and Putnam County residents on the **indicators of poverty**. The Needs Assessment Steering Committee identified a variety of methods to distribute the survey to county residents.

- Survey areas explored the eight community action key areas that are indicators of poverty. They include employment, education, housing, health, nutrition, use of income, transportation, and emergency situations. The survey also explored the area of children's needs.
- The Needs Assessment Steering Committee identified survey distribution partners in each county including services providers and community leaders, and the community at-large for survey delivery and developed an outreach plan that identified the method of survey delivery for each target audience, i.e. mail, electronic.
- In addition, EnAct clients were asked to complete the while receiving services with staff available to answer any questions.
- By utilizing Survey Monkey, an electronic online survey tool, EnAct was able to effectively reach the majority of the target audiences. However, some hard copy surveys were distributed using strategic outreach partners. The process included Kingery & Company preparing hard copy versions of the survey and mailing packets directly to the survey distribution partners. EnAct staff manually entered hard copy survey feedback into the Survey Monkey system.

Below you will find the survey data collection plan that identifies by county the target populations surveyed, the method of delivery and survey distribution partner by county.

Various Ages

- Prestera Center
- Regional Family Resource Network

Survey Results Summary

The Needs Assessment Steering Committee identified survey distribution partners throughout Boone, Clay, Fayette, Kanawha and Putnam Counties. As a result, there were 1,459 needs assessment survey respondents, with the largest segment of respondents ages 24-44. The majority were female (73.8%), White (89.2%), with a monthly household income of \$2,001+ (41.1%) listing high school/G.E.D. as the highest level of education completed (29.5%). Survey respondents were asked whether a key area or poverty indicator was an issue for them and/or their family.

The overall ranking of the eight key poverty indicators along with the top three reasons identified for each was as follows:

1. Health – 28.8%

The top three reasons identified were:

1. Lack of dental services
2. Lack of vision services
3. Affordability of prescription drugs

2. Employment – 30.6%

The top three reasons identified were:

1. Lack of employment opportunities
2. Lack of good-paying jobs with benefits
3. Lack of reliable transportation

3. Use of Income – 21.1%

The top three reasons identified were:

1. Lack of knowledge on how to save/invest money
2. Lack of knowledge about money management, i.e. credit card debt, budgeting, checking accounts, etc.

3. Lack of knowledge about addressing credit issues

4. Housing – 23.0%

The top three reasons identified were:

1. Affordability of rent/house payments
2. Affordability of additional housing costs, i.e. utilities, insurance, deposits, etc.
3. Lack of affordable/suitable housing

5. Transportation – 25.0%

The top three reasons identified were:

1. Cost of owning and operating a vehicle
2. Lack of public transportation
3. Lack of credit to buy a vehicle

6. Education – 16.9%

The top three reasons identified were:

1. Lack of vocational skills or training
2. Poor communication with teachers, principals, counselors
3. Availability and/or location of classes

7. Nutrition – 26.5%

The top three reasons identified were:

1. Not enough income to cover food cost
2. Not eligible for food stamps
3. Lack of transportation, i.e. to grocery store, food pantry or other food resources

8. Emergency Situations*

The top three reasons identified were:

1. Alcohol, drug abuse and/or gambling
2. Lack of income for utilities/fuel
3. Lack of food

*(NOTE: The format of the Emergency Situations did not allow for a ranking or percentage; rather it asked respondents to choose the three most important **emergency situations** that may be problems in the area.)

Community Stakeholder Feedback

The second form of primary data collection came from interviewing community stakeholder representatives from a variety of social service agencies in the region including Salvation Army Boys & Girls Club of Charleston, Fayette County Family Resource Network, Charleston Police Department, WV Department of Health and Human Resources, Regional Family Resource Network, Upper Kanawha Valley Starting Points Family Resource Center and Parents as Teachers, EnAct, and United Way of Central WV. The purpose of these interviews was to identify how other agencies might be addressing the key poverty indicators.

Open-ended questions about each of the key poverty indicators encouraged expression of qualitative feedback. Questions such as, "Is your agency addressing EMPLOYMENT issues in your community and if so, how? The responses in detail are included at the end of each poverty issue as part of the county reports. Overall questions and responses included the following feedback.

What one thing do you like most about your community?

- The friendly children & families in my neighborhood.
- The fantastic natural resources - opportunities to hike, bike, walk. Summersville Lake to swim or stand up paddle board (SUP). Okay, you asked the ONE thing - the natural resources available to transform your life.
- Even though drugs touch everyone somehow, the community in a whole believes in the success possible and the potential here.
- Still being mostly rural.
- Communities have a desire to want to work on their problems. All it takes is finding those people and bringing them to the table.
- People care about each other and come together to help those in need.
- The caring community that continues to help others, year after year.
- The strong interaction and communication between agencies dealing with the poverty population.
- Close knit neighborhoods, friendly people
- The people.

What is ONE thing you would change to improve your community?

- Stop drug use.
- Get folks off the couch and get moving.
- Figure out how to motivate the persons with low self esteem to fight to better their situations.
- To get the more community resources with the amount of wealth in Hurricane and Winfield I am not sure why we do not have as many resources available to assist those in need.
- Increase funding opportunities for community organizations.
- I would change or improve the community by creating opportunities for children and families. We need good paying jobs and children need adequate child care and after school programs.
- The cost of higher education. I would love to see every high school student have the opportunity to get a college education.
- Increasing knowledge of available services and outreach.
- Improved employment opportunities
- More industry to create jobs.

In your opinion, what would your community look like without poverty?

- Thriving small city full of kids.
- Children are safe in their homes and communities; caring adults that support productive engagement and citizenship; volunteerism; environmental appreciation; natural resource conservation; defying corporations that use/abuse workers; defying the prevalence of substance abuse for economic gain; appreciation for natural resources; healthy communities (no food insecurities); opportunities for physical activity acted upon; hope for a brighter future.
- Well functioning families with food, cloths, and a little extra cash for church, school and vacation extras. Not hooked on drugs. Eating with the family and friends not depending on someone else.
- It would be great.
- All 3 counties (Boone, Kanawha, and Putnam) would look different, but would function much more effectively and have resources available to make good, positive choices.

- Children and families would have things they need such as money to pay utility bills, adequate housing, clothing, jobs, etc.
- I feel the crime rate in our community would be less if poverty did not exist. In turn, children could have a much safer and happier childhood. This better start in their lives could transform the next generation into productive citizens in our community.
- Our community would flourish.
- Cleaner neighborhoods, less crime, children playing in parks, safety concerns not an issue, reduced substance use.
- Enriched.

In your opinion, what keeps families in poverty in your community?

- Lack of motivation from those to get off the social well-fare system once they have received aide. Lack of education. Drug abuse.
- Lack of hope; substance abuse; relying on someone to give them a job instead of creating a job; circumstances that I don't understand - is it laziness? Over reliance on welfare? Disability as a way out of working? Low minimum wage? Generational cultures?
- Drugs have allowed families not to be trained in a good family life. Drugs causes low self esteem whether the individual using or in the family member. Searching for good paying jobs and getting the education with low self esteem is very difficult.
- The lack of public transportation to the far reaches of the county can be connect to Huntington and Charleston to increase job opportunities out side fast food or min wage jobs. Also and lack of available community resources to aid families.
- There are so many factors: lack of public transportation, too rural, few resources available to meet needs, lack of employment opportunities, etc.
- Our community is the heart of the coalfields. We need jobs.
- Poor choices such as drugs, lack of education, generational poverty thinking, etc.
- Lack of knowledge of available programs, ineligibility for programs in the area (due to slightly over income, drug use, etc.).
- Lack of education, lack of opportunities.
- Jobs and education.

Focus Groups

The third form of primary data collection came from focus groups conducted throughout the region. United Way of Central WV (Boone, Clay, Kanawha and Putnam) and United Way of Southern WV (Fayette County) and their partner agencies invited attendees to the focus group each county. A flyer was distributed to the partner agencies to get the word out about the focus groups. The focus groups were limited to the first 10 people who signed up in each county. Each participant was paid \$20 to participate.

Eligibility:

Participants had to meet the following guidelines.

- Be over the age of 18.
- Receive SNAP, WIC or Senior voucher benefits.
- Live in one of the counties where the group discussions are being held.

Dates and Locations

- Boone County – August 25 at the Danville Community Center
- Clay County – September 29 at the Board of Education Office
- Fayette County – August 20 at the WIC Office
- Kanawha County – August 25 at the United Way of Central West Virginia

- Putnam County – Two different dates and locations were set and partner agencies were not able to secure participants.

Focus Group Summaries

The same questions were asked at each focus group, and a summary of each county's responses are below the questions.

ISSUES

1. What do you like about your community?

- Boone County: There is a strong sense of family and community in Boone County.
- Clay County: It is a quiet, friendly place to live.
- Fayette County: It is a small, family-friendly place to live.
- Kanawha County: There are good people and resources available in the communities.

2. What would you change to improve the community?

- Boone County: Transportation is a recurring issue.
- Clay County: There are many issues that need addressed, from employment to crime, education and transportation.
- Fayette County: Drugs are a recurring issue in Fayette County.
- Kanawha County: The economy and job availability are an issue for many families.

BARRIERS

1. Is EMPLOYMENT an issue for you and/or your family? If so, why?

- Boone County: Public assistance and resources are available for employment training, but participants have difficulty accessing those.
- Clay County: Employment seems to be a major issue in Clay County.
- Fayette: Finding good-paying jobs and transportation are issues related to employment in Fayette County.
- Kanawha County: Personal or health issues keep many from working, and those that want to work have difficulty finding jobs that allow for self-sufficiency.

2. Is EDUCATION an issue for you and/or your family? If so, why?

- Boone County: Education for children and opportunities for adults are not a perceived issue.
- Clay County: Education seems to be a major issue in Clay County.
- Fayette County: Education could be improved in Fayette County.
- Kanawha County: Daily pressures and perceived lack of opportunity affect educational pursuits.

3. Is HOUSING an issue for you and/or your family? If so, why?

- Boone County: Public and private healthcare are available, but transportation to access these services is a problem.
- Clay County: Adequate and affordable housing is an issue in Clay County.
- Fayette County: Adequate and affordable housing can be difficult to find.
- Kanawha County: There are opportunities for government-subsidized housing, but living independently has barriers.

4. Is HEALTH an issue for you and/or your family? If so, why?

- Boone County: Public and private healthcare are available, but transportation to access these services is a problem.
- Clay County: Both access to and ability to afford healthcare is an issue.
- Fayette County: Access to health care is an issue, particularly secondary health (dental and vision).
- Kanawha County: Many residents' basic health care needs are met, but tertiary care is still an issue.

5. Is NUTRITION an issue for you and/or your family? If so, why?

- Boone County: Public assistance and local churches provide food, but transportation is a major obstacle to access.
- Clay County: Nutrition is expensive and healthier foods are of poor quality in Clay County.
- Fayette County: Access to and affordability of health foods are an issue.
- Kanawha County: Access to food is plentiful, but the community doesn't necessarily consume nutrient-dense foods.

6. Is USE OF INCOME an issue for you and/or your family? If so, why?

- Boone County: Income is a big issue for all participants.
- Clay County: Income is a big issue for all participants.
- Fayette County: Income is used to cover basic expenses, with nothing left for saving or extraneous purchases.
- Kanawha County: Both the amount of income and type of jobs have impact on participants' daily lives.

7. Is TRANSPORTATION an issue for you and/or your family? If so, why?

- Boone County: Transportation is a recurring issue that impacts all other issues (education, health care, nutrition).
- Clay County: Affordability of private transportation is an issue in Clay County, and public transportation is nonexistent.
- Fayette County: Public transportation is lacking in Fayette County.
- Kanawha County: Participants have access to either personal or public transportation to meet their needs.

8. Have you and/or your family found yourself in crisis and needed help with basic needs? If so, please explain?

- Boone County: Limited resources available for when help is needed.
- Clay County: The need for crises services is great in Clay County.
- Fayette County: Participants rely on family or creative means to get by in a crisis.
- Kanawha County: Resources are available, but often people are unaware or unwilling to use them.

9. What do you consider to be the top EMERGENCY SITUATIONS in your community?

- Boone County: Joblessness and drug abuse are recurring problems.
- Clay County: Lack of income and drug abuse are issues.
- Fayette County: Education improvements and emergency housing are needed.
- Kanawha County: Drug abuse and job availability are pervasive community issues.

10. What do children in your community need?

- Boone County: Extracurricular activities are the biggest need for children.
- Clay County: A safe place with structured activities for children is needed.
- Fayette County: Education and structured after-school care are needed for children.
- Kanawha County: Structured activities and child care outside of school hours are the primary needs.

SOLUTIONS

1. What do you think your community needs most to make it a better place to live?

- Boone County: Jobs, transportation, and addressing drug abuse.
- Clay County: Jobs, access to food, public transportation and after school activities for children are great needs in Clay County.
- Fayette County: Economic and housing issues are a recurring theme.
- Kanawha County: Education and economic opportunities for residents that provide long-lasting improvement.

2. What services are needed in your community for young children, teens, adults and seniors?

- Boone County: After school structured activities for children and teens seem to be the greatest need.
- Clay County: Structured activities for children and better healthcare for all ages is needed.
- Fayette County: Structured activities for children, substance abuse prevention for students, and better healthcare for adults is needed.
- Kanawha County: Childcare and structured activities for younger populations, education and assistance for older citizens are needed.

3. Who needs to be involved in improving the community? And how?

- Boone County: Participants are looking to government for assistance.
- Clay County: Participants see the need for all to be involved in community improvement.
- Fayette County: Participants see the need for all to be involved in community improvement.
- Kanawha County: Increased community participation in general, and involving churches and senior citizens.

Secondary Data Collection

Secondary data included collecting relevant and current statistics and research from reliable sources such as other non-profit agencies and government entities in an effort to complement the survey results and community stakeholder feedback. Research on each of the eight poverty indicators was compiled and are presented in detail as part of the Poverty Indicator sections.

COUNTY PROFILES

BOONE COUNTY

History & Geography

Boone County is located in the southwestern part of West Virginia. In 1847 the county was formed by taking parts of Kanawha, Cabell, and Logan Counties. The county is named for Daniel Boone, who from 1789 to 1795 was a noted hunter and explorer, whose home was in the Great Kanawha Valley (Wikipedia, 2014).

Boone County is considered a part of the Charleston, WV metropolitan area. The county seat is Madison. According to the 2010 US Census the county is 503 square miles, 501.3 square miles of which is land and the remaining 1.7 is water (US Census, 2010).

Population Facts - 2013 US Census

BOONE COUNTY	2012-2013
Total Population	24,224
White	98.5%
Black or African American	0.6%
Asian	0.1%
American Indian and Alaska Native	0.1%
Hispanic or Latino	0.4%
Two or more races	0.6%
Median Age	39.0
Population Under 5 Years	6.1%

CLAY COUNTY

History & Geography

Clay County was founded in 1858. It is also considered a part of the capitol city, Charleston, WV's metropolitan area. Clay county derives its name from Henry Clay, who was a famous American statesman, known for being a member of the United States Senate from Kentucky and United States Secretary of State in the 19th century. According to the U.S. Census Bureau, the county has a total area of 344 square miles, of which 342 square miles is land and 1.9 square miles (0.5%) is water. It borders Roane, Kanawha, Nicholas, and Braxton Counties (Wikipedia, 2014).

Population Facts - 2013 US Census

CLAY COUNTY	2012-2013
Total Population	9,244
White	98.6%
Black or African American	0.2%
Asian	0.1%
American Indian and Alaska Native	0.2%
Hispanic or Latino	0.5%
Two or more races	1.0%
Median Age	37.0
Population Under 5 Years	1,200

FAYETTE COUNTY

History & Geography

Fayette County was founded in 1831 and has a rich history of divides. The state of Virginia previously had a Fayette County, which was lost to form the new state of Kentucky. A substantial portion was subdivided from Fayette to form Raleigh County in 1850. Fayette was one of 50 counties that broke off from the rest of Virginia and formed the new state of West Virginia during the American Civil War. In 1871, an Act of the West Virginia Legislature severed a small portion to form part of Summers County Fayetteville, the county seat of Fayette County, West Virginia, was originally named Vandalia for its founder, Abraham Vandal. Before 1837, the name was changed to Fayetteville, after the name of the county, and in honor of Marquis de Lafayette, the French nobleman, who helped this country during the dark days of the Revolutionary War (WV Division of Culture & History, 2014).

According to the U.S. Census Bureau, the county has a total area of 668 square miles, of which 662 square miles is land and 7 square miles is water.

Population Facts - 2013 US Census

FAYETTE COUNTY	2012-2013
Total Population	45,599
White	93.5%
Black or African American	4.7%
Asian	0.2%
American Indian and Alaska Native	0.3%
Hispanic or Latino	0.9%
Two or more races	1.3%
Median Age	40.1
Population Under 5 Years	5.9

KANAWHA COUNTY

History & Geography

Kanawha County, named for the Great Kanawha River which was named after a prolific Native American tribe that has lived in the area. The county seat of Kanawha is Charleston, which is also the state's largest city and capitol. The first permanent settlement for the area was Fort Lee was built in 1788, and in 1791 Daniel Boone was a member of the Kanawha Assembly. According to the U.S. Census Bureau, the county has a total area of 911 square miles, of which 902 square miles is land and 9 square miles is water. (Wikipedia, 2014).

Population Facts - 2013 US Census

KANAWHA COUNTY	2012-2013
Total Population	191,275
White	89.0%
Black or African American	7.5%
Asian	1.1%
American Indian and Alaska Native	0.2%
Hispanic or Latino	1.1%
Two or more races	2.1%
Median Age	40.0
Population Under 5 Years	5.6

PUTNAM COUNTY

History & Geography

Putnam County is located on the western side of the state, bordering Mason, Jackson, Kanawha, Lincoln, and Cabell County. Putnam County is part of the Huntington-Ashland, WV-KY-OH Metropolitan Statistical Area, which is also included in the Charleston-Huntington-Ashland, WV-OH-KY Combined Statistical Area. The name Putnam is derived from Israel Putnam, a hero of the French and Indian War who also was a General in the Revolutionary War. The county seat is Winfield. According to the U.S. Census Bureau, the county has a total area of 350 square miles, of which 346 square miles is land and 4.7 square miles is water. (Wikipedia, 2014)

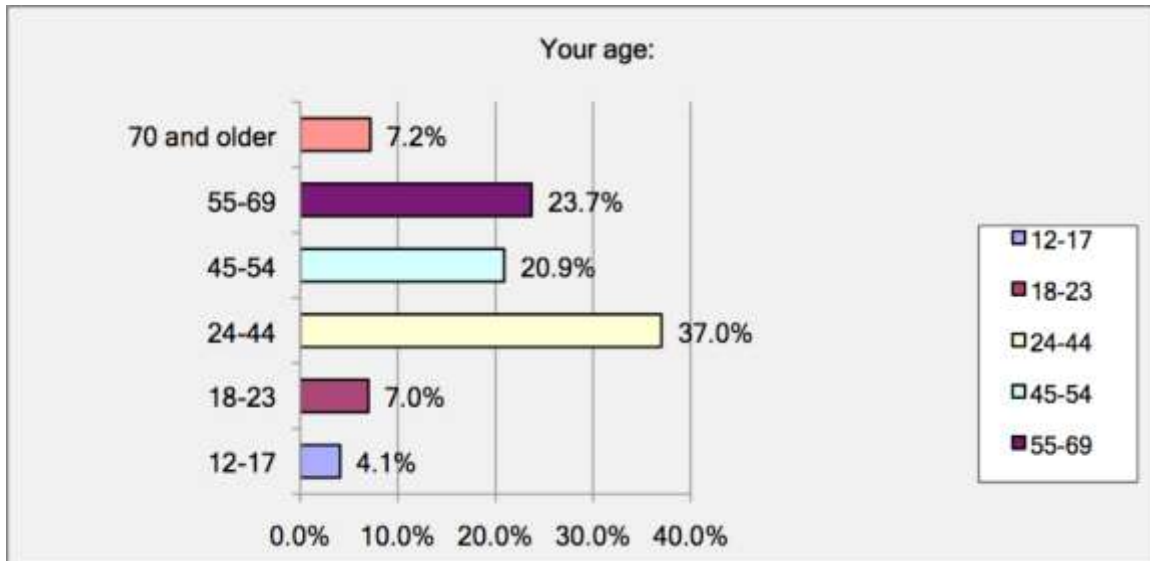

Population Facts - 2013 US Census

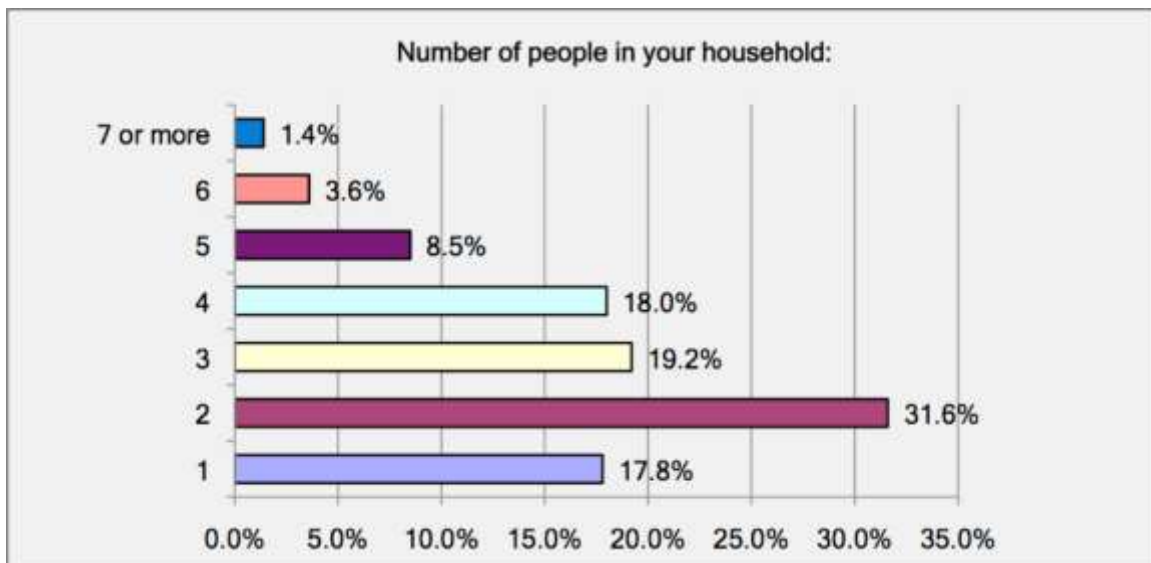

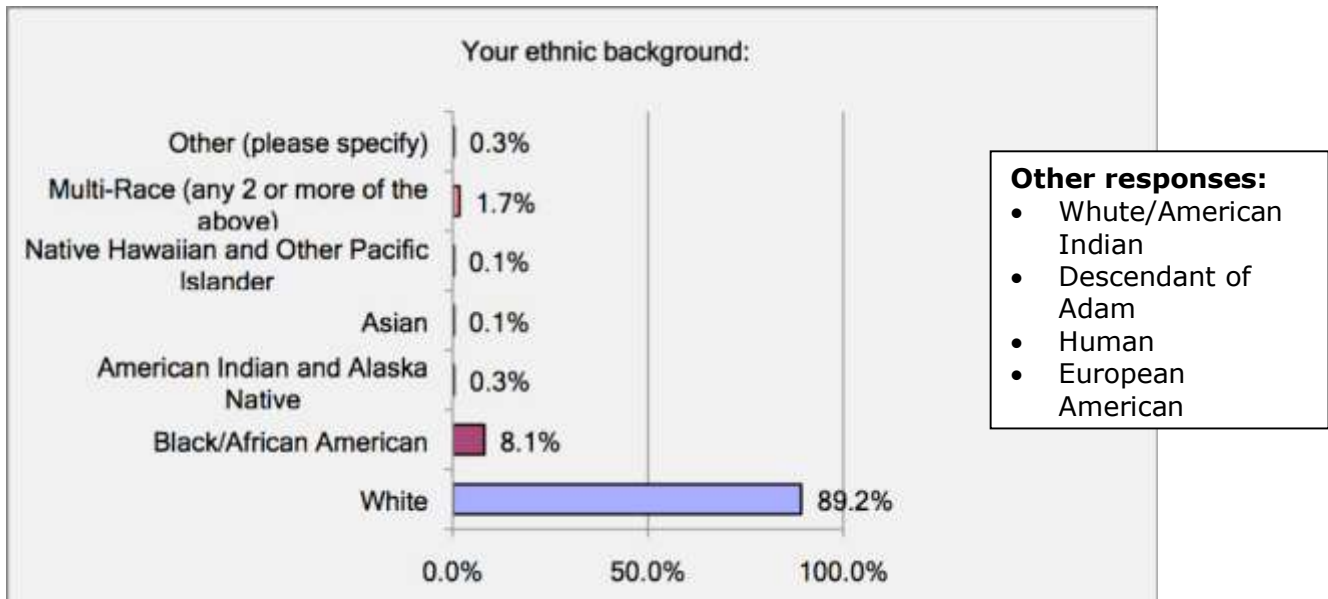

PUTNAM COUNTY	2012-2013
Total Population	56, 650
White	96.8%
Black or African American	1.0%
Asian	0.9%
American Indian and Alaska Native	0.2%
Hispanic or Latino	0.9%
Two or more races	1.1%
Median Age	38.0
Population Under 5 Years	5.6%

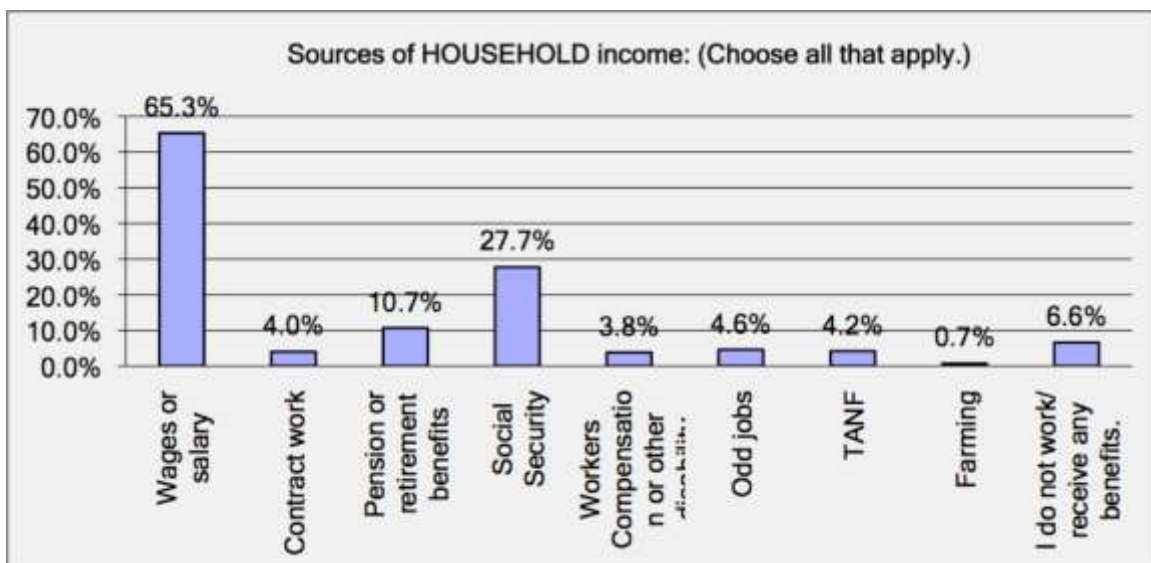

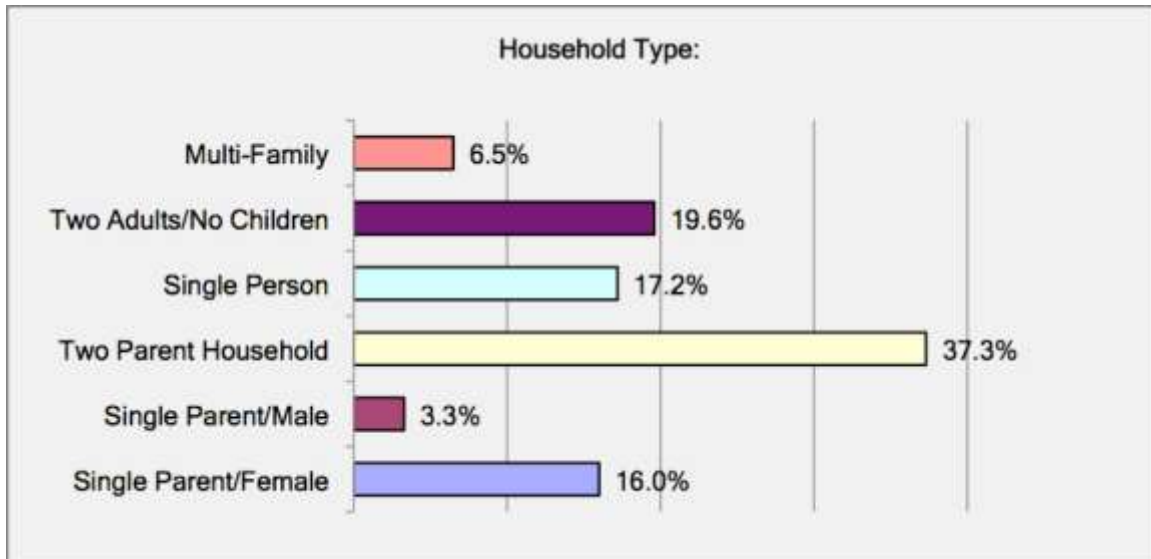

SURVEY RESPONDENTS

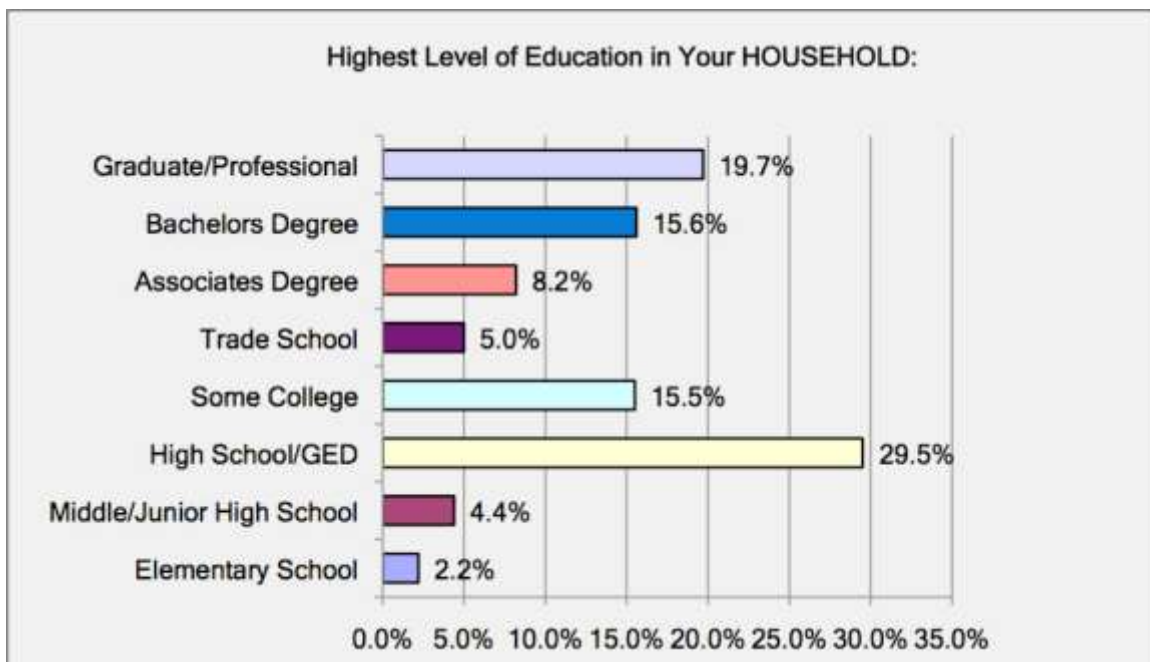

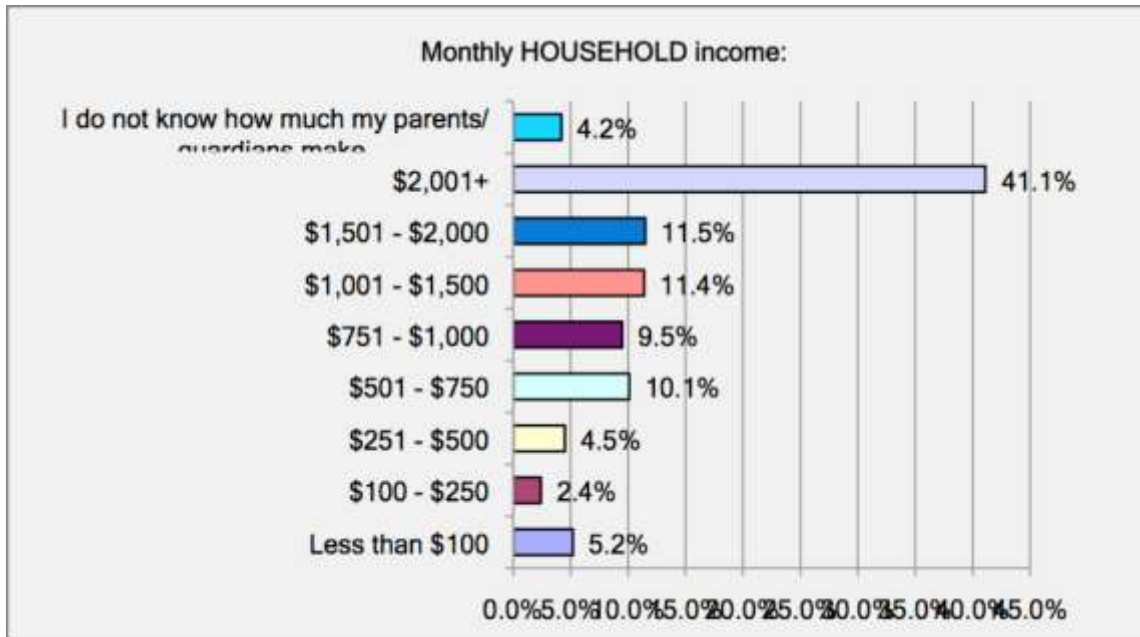

Profile and Overall Results

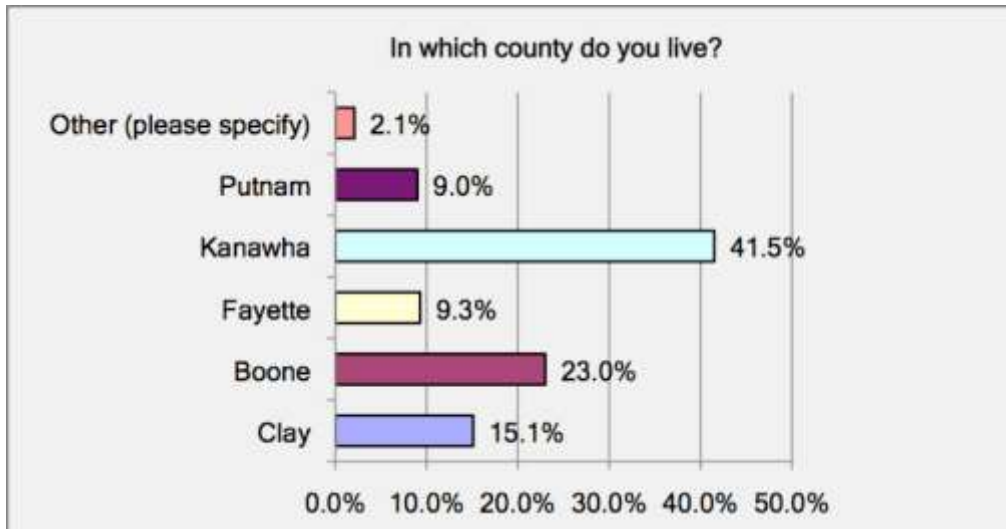

Throughout the survey process, **1,459** individuals who live and/or work in Boone, Clay, Fayette, Kanawha, and Putnam County completed the Needs Assessment Survey. Participants included educators, senior citizens, elected officials, high school seniors, employees and board members of various local non-profit organizations, and clients served by non-profit social service agencies. Below is a demographic synopsis of the individuals who took part in the process:

Other:

- USA
- Logan
- Calhoun
- York
- America
- Mason - XX
- Jackson - XX
- Braxton
- Roane - XXX
- Lincoln -XX
- Raleigh -XX
- Cabell-XXXX
- Mingo
- Monongalia
- Mercer

Overall SURVEY RESULTS

The top three needs identified by the survey respondents were as follows:

1. Employment

The top three reasons identified were:

1. Lack of employment opportunities
2. Lack of good-paying jobs with benefits
3. Lack of reliable transportation

2. Health

The top three reasons identified were:

1. Lack of dental services
2. Lack of vision services
3. Affordability of prescription drugs

3. Nutrition

The top three reasons identified were:

1. Not enough income to cover food cost
2. Not eligible for food stamps
3. Lack of transportation, i.e. to grocery store, food pantry or other food resources

POVERTY INDICATOR: EMPLOYMENT

EMPLOYMENT Primary Data: Survey Results

- The Needs Assessment Survey asked the basic question, *is **employment** an issue for you and/or your family?*
- Of the 1,407 individuals who answered the question, **30.6%** felt that employment was in fact an issue.

The top 3 reasons identified were:

1. Lack of employment opportunities
2. Lack of good-paying jobs with benefits
3. Lack of reliable transportation

EMPLOYMENT Primary Data: Survey Results – BOONE COUNTY

The Needs Assessment Survey asked the basic question, *is **employment** an issue for you and/or your family.* **45.7%** of respondents in Boone County felt that employment was an issue.

The top three reasons identified were:

1. Lack of employment opportunities
2. Lack of good-paying jobs with benefits
3. Lack of education to obtain a job

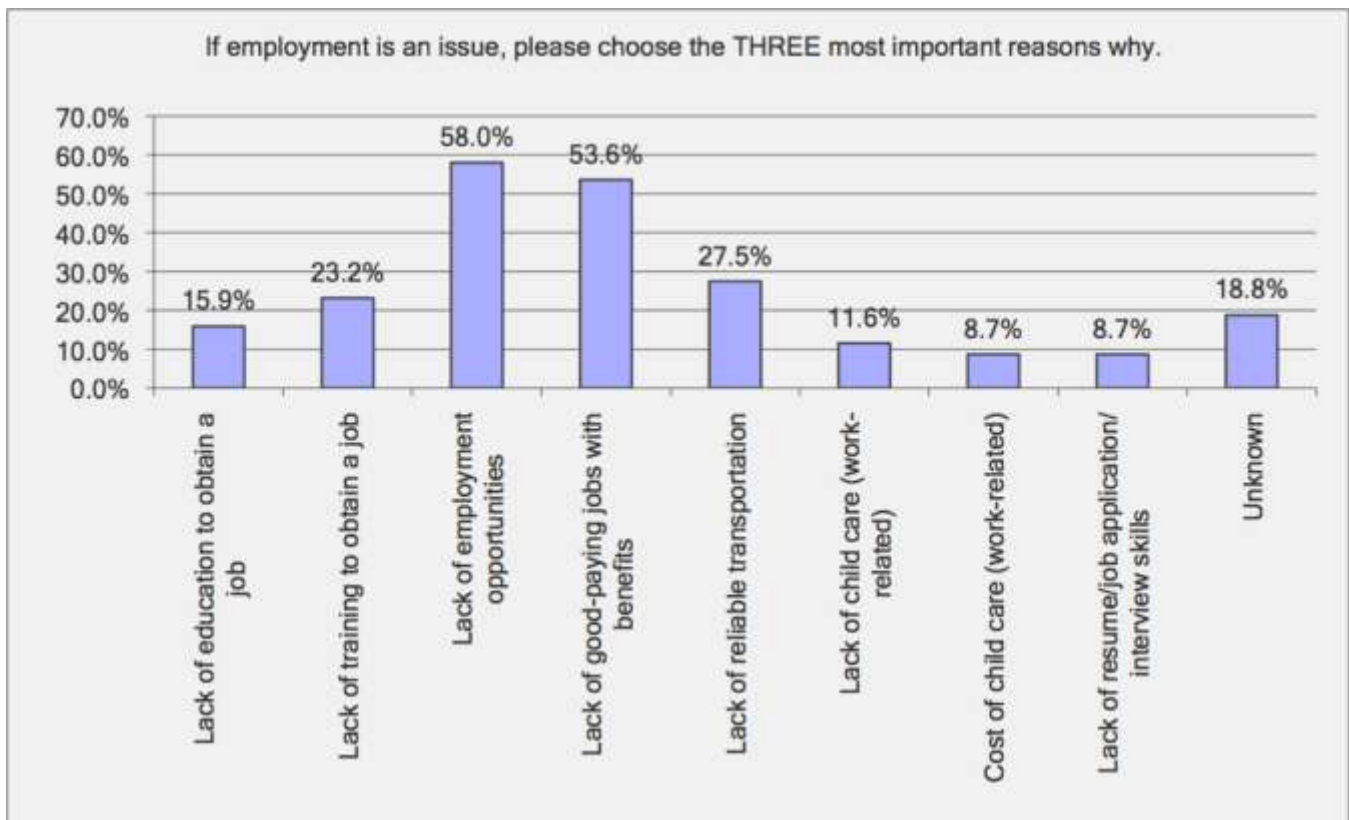

EMPLOYMENT Primary Data: Survey Results – CLAY COUNTY

The Needs Assessment Survey asked the basic question, *is **employment** an issue for you and/or your family.* **29.1%** of respondents in Clay County felt that employment was an issue.

The top three reasons identified were:

1. Lack of employment opportunities
2. Lack of good-paying jobs with benefits
3. Lack of reliable transportation

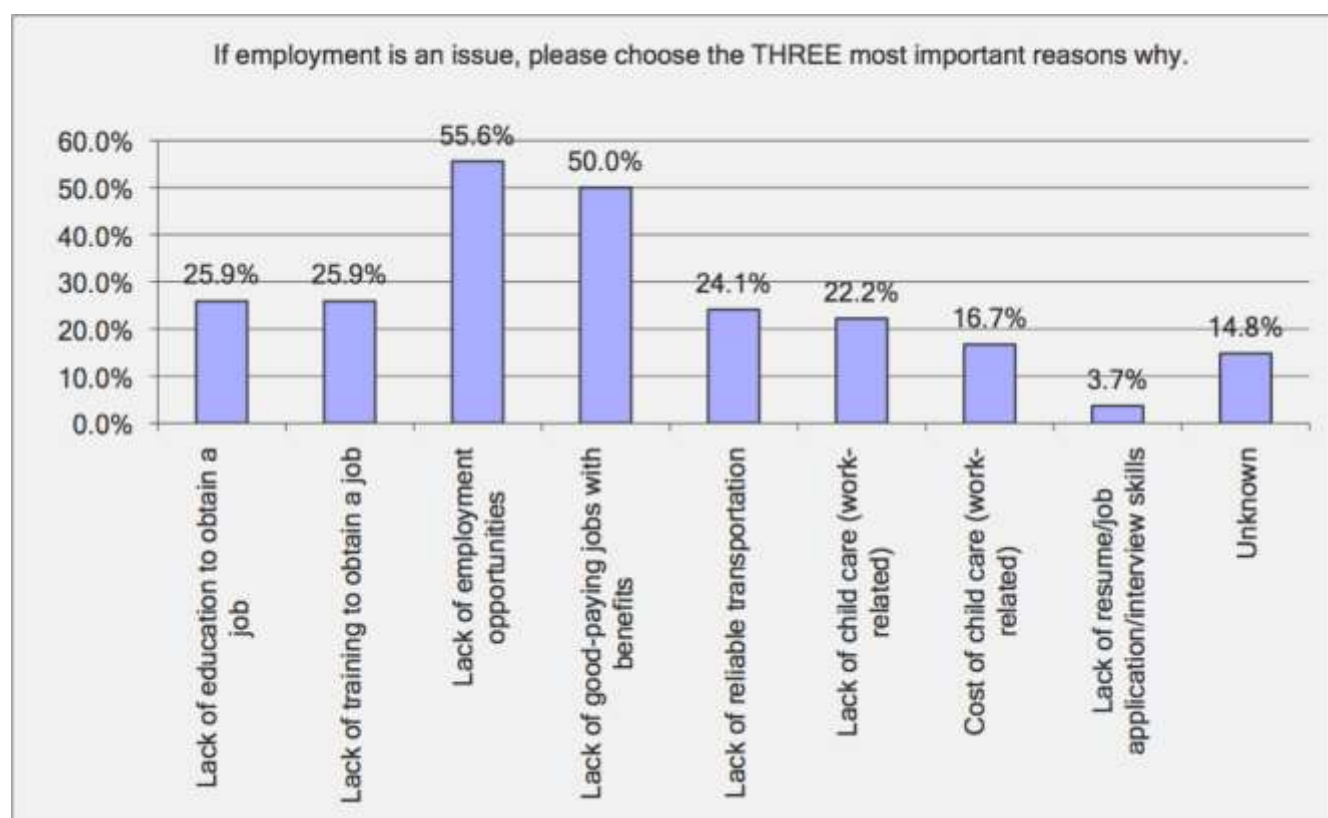

EMPLOYMENT Primary Data: Survey Results – FAYETTE COUNTY

The Needs Assessment Survey asked the basic question, *is **employment** an issue for you and/or your family*. **37.4%** of respondents in Fayette County felt that employment was an issue.

The top three reasons identified were:

1. Lack of employment opportunities
2. Lack of good-paying jobs with benefits
3. Lack of education to obtain a job/Lack of training to obtain a job

EMPLOYMENT Primary Data: Survey Results – KANAWHA COUNTY

The Needs Assessment Survey asked the basic question, *is **employment** an issue for you and/or your family*. **23.3%** of respondents in Kanawha County felt that employment was an issue.

The top three reasons identified were:

1. Lack of employment opportunities
2. Lack of good-paying jobs with benefits
3. Lack of education to obtain a job

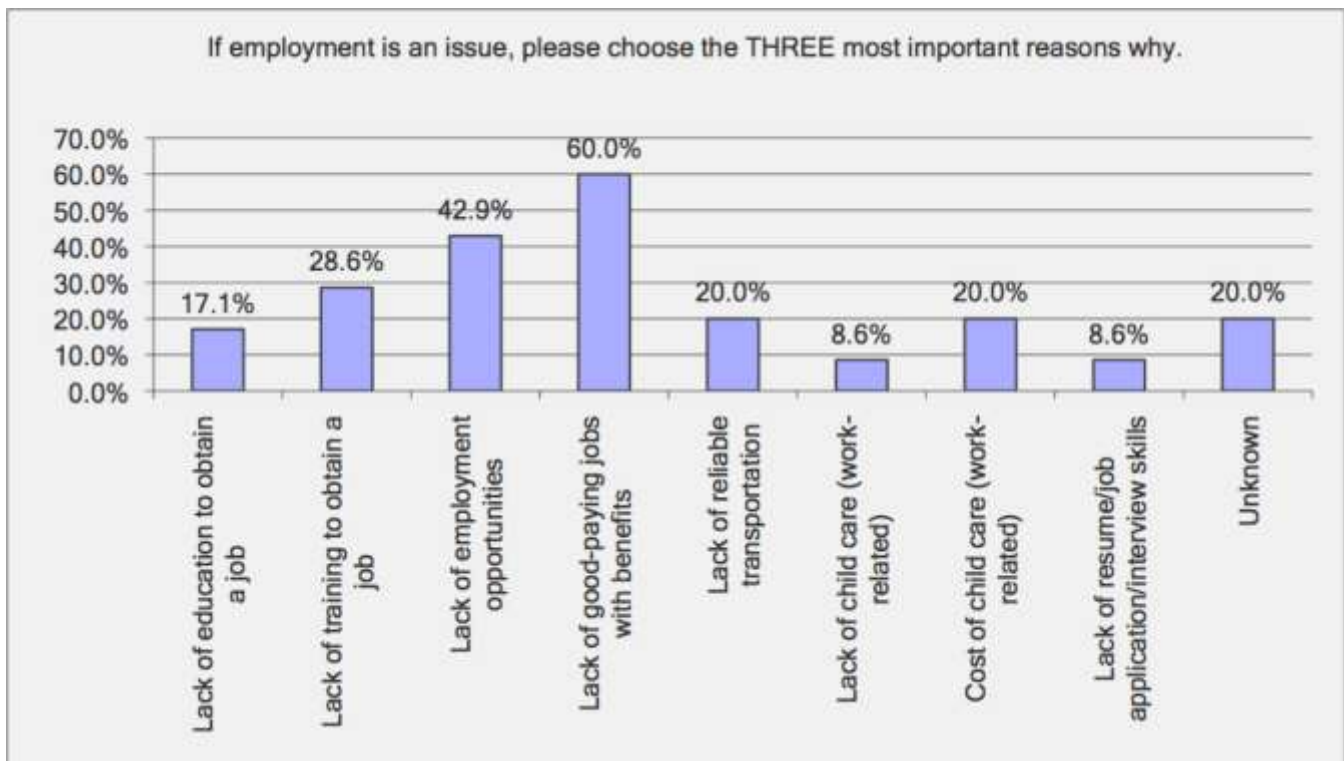

EMPLOYMENT Primary Data: Survey Results – PUTNAM COUNTY

The Needs Assessment Survey asked the basic question, *is **employment** an issue for you and/or your family.* **23.6%** of respondents in Putnam County felt that employment was an issue.

The top three reasons identified were:

1. Lack of employment opportunities
2. Lack of good-paying jobs with benefits
3. Lack of education to obtain a job

Participants Speak Out – Community Stakeholder Feedback

Is your agency addressing **EMPLOYMENT** issues in your community and if so, how?

- **EnAct** – We offer employment training assistance, purchase of needed specialty clothing, resume preparation, assistance in completing job applications, and interviewing training.
- **Charleston Police Dept.** – With the Drug Marketing Program, helping the B Listers get what they need to get a job, if they let us.
- **WV DHHR** - For the SNAP program a large portion are referred to Job Services as part of the program to receive SNAP. Also West Virginia Works is a work first program that requires recipients to obtain a skill set or education to obtain better employment.
- **Upper Kanawha Valley Starting Points Family Resource Center** - We provide information about job opportunities to families looking for jobs. We will also assist with writing a resume or make referrals to agencies that help with ABE, GED, or other classes such as resume writing.
- **Region III Workforce Investment Board of Kanawha County** - We provide training dollars for low-income Adults and Dislocated Workers. We also provide Job Readiness workshops, Occupational Exploration experiences and Work Experience for Disadvantaged Youth in Kanawha County through Human Resource Development Foundation (HRDF).
- **United Way of Central WV** - United Way of Central WV works to ensure children, adults and youth achieve their potential through enrichment programs, mentoring, leadership development, career exploration, and other activities designed to help them become productive members of our community by funding agencies that provide these opportunities. LifeBridge Vet Corps engages military veterans in service to provide comprehensive services to individuals in their communities who are transitioning from homelessness to permanent housing so that they can support themselves and avoid becoming homeless again in the future. Members support military veterans and other adults in the community through peer mentoring, employment and skills training, information and referral service and financial literacy services. Vet Corps members receive extensive training to meet the community needs and to meet their own personal and professional goals.

Secondary Data: Research

Understanding the employment situation in the community provides the background necessary for determining what types of jobs are available, what skills business and industry need and what it takes for a family to become self-sufficient. Amidst falling home equity, the rising cost of food, health care and housing along with national unemployment rates, employment plays a tremendous role in a community's ability to overcome a recession.

National Poverty Guidelines:

Persons in Family or Household	Yearly Income
1	\$11,490
2	15,510
3	19,530
4	23,550
5	27,570
6	31,590
7	35,610
8	39,630
For each additional person, add	4,020

Poverty Rate

According to 2012 estimate, Clay County has the highest percentage of people living in poverty at 23.2%. Putnam County has the lowest poverty rate at 10.8%.

Geographic Area	All Ages		Children Age 0-17		Seniors (Age 65 & over)	
	Number of Persons	Poverty Rate	Number of Persons	Poverty Rate	Number of Persons	Poverty Rate

Median Household Income

The following chart shows the national, state and county level median household income. Boone, Clay and Fayette County are below the state average of \$40,188 while Kanawha and Putnam are above it. Putnam is also above the national average of \$51,371.

Median Household Income	
Area	Amount
United States	\$51,371
West Virginia	\$40,188
Boone County	\$39,194
Clay County	\$32,885
Fayette County	\$33,445
Kanawha County	\$45,813
Putnam County	\$55,172

*U.S. Census Bureau, 2013

Unemployment Rates

The unemployment rate is the number in the civilian labor force divided by the number of unemployed. The Bureau of Labor Statistics defines unemployment as people who do not have a job, have actively looked for work in the past four weeks, and are currently available for work. It also includes people who were temporarily laid off and are waiting to be called back to that job. It doesn't count the jobless who:

- Didn't look for a job in the past four weeks.
- Are so discouraged that they have stopped looking for a job.

The unemployment rate is important as a gauge of joblessness. For this reason, it is also a gauge of the economy's growth rate. However, the unemployment rate is a lagging indicator. This means it measures the *effect* of a recession and so occurs after one has already started.

Employers are reluctant to lay people off when the economy turns bad, and even more reluctant to hire them when the economy improves. For that reason, the unemployment rate can only confirm what the other indicators are showing. For example, if the other indicators show a quickening economy and the unemployment rate is declining, then we know businesses are confident enough to start hiring again. Since it is a lagging indicator, unemployment can worsen even after the economy starts to improve. For example, unemployment went from 5.6% in 2002 to 6% in 2003 even though the recession ended in 2002.

Employers

In many communities across America, local officials and leaders wrestle with the role of providing enough local jobs and income to maintain the economic viability of their communities. National and international events and trends can have a major impact on the rate and type of income and the employment growth communities can achieve. But communities that take an active role in attracting and retaining jobs, in addition to having a skilled and educated workforce, have an advantage over those communities that allow external events to exclusively dictate the pace of local economic growth.

According to the CFED's 2013, Assets and Opportunities Scorecard, 33.3% of jobs in West Virginia are considered low-wage jobs. This is defined as the percentage of jobs in occupations with median annual pay below 100% poverty threshold for a family of four (\$22,314), 2010. (CFED, Assets & Opportunities Scorecard, 2013).

According to the WV Employment & Wage Report, the top Employers in Boone County:

- | | |
|---|-------------------------------------|
| 1. Elk Run Coal Company, Inc. (Black Castle Mining) | 6. Eastern Associated Coal Company |

POVERTY INDICATOR: EDUCATION

EDUCATION Primary Data: Survey Results

The Needs Assessment Survey asked the basic question, *is **education** an issue for you and/or your family*. Of the 1,046 individuals who answered the question, **16.9%** of respondents felt that education was an issue. In order to gain an understanding of the root causes of the education issues in the community, the Needs Assessment Survey provided the opportunity for respondents to identify WHY they felt education was an issue.

The top three reasons identified were:

- 1) Lack of vocational skills or training
- 2) Poor communication with teachers, principals, counselors
- 3) Availability and/or location of classes

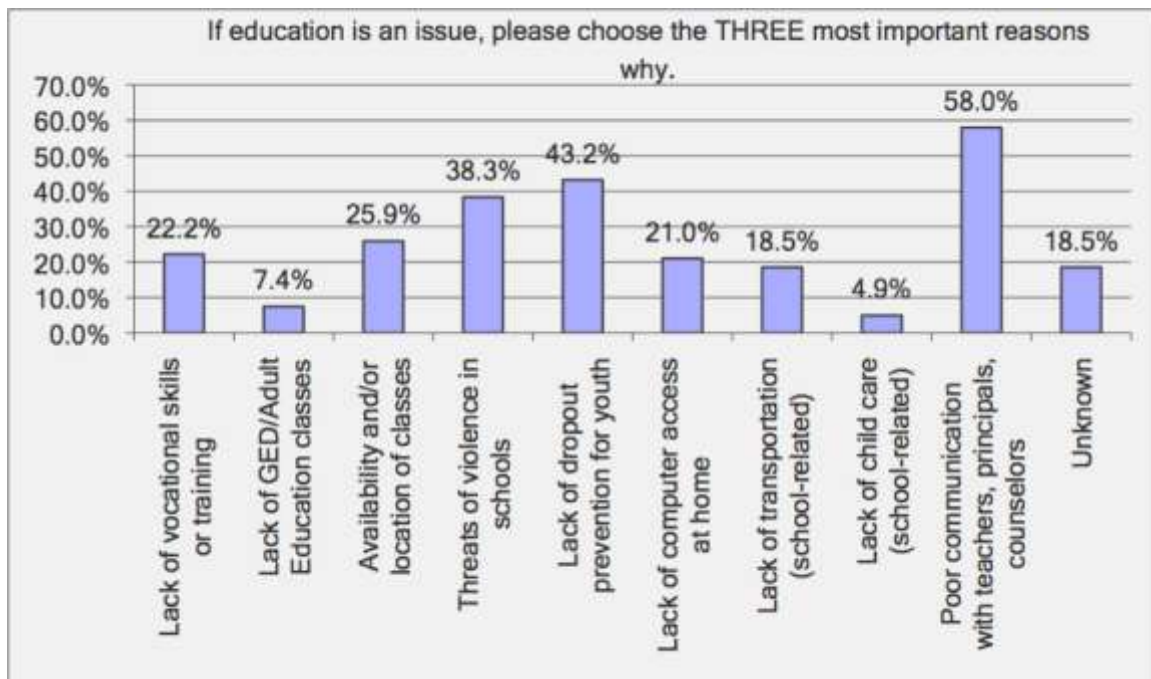

EDUCATION Primary Data: Survey Results – BOONE COUNTY

The Needs Assessment Survey asked the basic question, *is **education** an issue for you and/or your family.* **23.6%** of respondents in Boone County felt that education was an issue.

The top three reasons identified were:

- 1) Poor communication with teachers, principals, counselors
- 2) Lack of dropout prevention in youth
- 3) Threats of violence in schools

EDUCATION Primary Data: Survey Results – CLAY COUNTY

The Needs Assessment Survey asked the basic question, *is **education** an issue for you and/or your family.* **20.3%** of respondents in Clay County felt that education was an issue.

The top three reasons identified were:

- 1) Lack of vocational skills or training
- 2) Lack of dropout prevention in youth
- 3) Availability and/or location of classes

EDUCATION Primary Data: Survey Results – FAYETTE COUNTY

The Needs Assessment Survey asked the basic question, *is **education** an issue for you and/or your family*. **21.1%** of respondents in Fayette County felt that education was an issue.

The top three reasons identified were:

- 1) Lack of vocational skills or training
- 2) Availability and/or location of classes
- 3) Lack of dropout prevention in youth

EDUCATION Primary Data: Survey Results – KANAWHA COUNTY

The Needs Assessment Survey asked the basic question, *is **education** an issue for you and/or your family*. **13.6%** of respondents in Kanawha County felt that education was an issue.

The top three reasons identified were:

- 1) Lack of vocational skills or training
- 2) Lack of computer access at home
- 3) Availability and/or location of classes

EDUCATION Primary Data: Survey Results – PUTNAM COUNTY

The Needs Assessment Survey asked the basic question, *is **education** an issue for you and/or your family*. **8.3%** of respondents in Putnam County felt that education was an issue.

The top three reasons identified were:

- 1) Lack of vocational skills or training
- 2) Availability and/or location of classes
- 3) Lack of computer access at home

Participants Speak Out – Community Stakeholder Feedback

Is your agency addressing EDUCATION issues in your community and if so, how?

- **EnAct** – We offer educational assistance such as tuition assistance, program costs assistance, materials and/or books assistance, and assistance in finding educational/program opportunities.
- **Salvation Army Boys & Girls Club of Charleston, WV**- We offer our after school students free tutoring, homework help, incentives for completing assignments & getting good grades.
- **Fayette County FRN** – We have ongoing efforts to connect education with community service and business. However, our success depends on involvement of the school board leadership, which often changes.
- **Charleston Police Department** - With the Drug Marketing Intervention Program the B Listers are sent to educational classes to help them better their situation.
- **WV DHHR** - Youth Services are often working truancy cases to ensure that the children are going to school and obtaining an education.
- **Regional Family Resource Network** - We work with various organizations to educate a range of community members on various topics – such as substance abuse prevention for elementary school children, or how young pregnant students can have a healthy pregnancy.
- **Upper Kanawha Valley Starting Points Family Resource Center**- We provide in-home family education services through our Parents as Teachers program. This is an evidence-based program that shows that children that have participated start to school ready to learn and ahead of their peers. We work with the entire family and provide information to parents or other caregivers about education opportunities through resource and referrals.
- **United Way of Central WV** - United Way of Central WV works to ensure children and youth achieve their potential through enrichment programs, mentoring, leadership development, career exploration, and other activities designed to help them become productive members of our community by funding agencies that provide these opportunities. United Way of Central WV also has sponsored programs that address education issues. AmeriCorps*VISTA (Volunteers In Service to America), located in 12 counties in West Virginia, is part of a tradition of service and represents America at its best: making a sustainable impact, while promoting values of community, responsibility, and opportunity. Members recruit community volunteers to provide sustained reading opportunities for children, provide parent/child enrichment activities, and provide educational information for families in the areas of health, fitness, and nutrition. Members also support literacy programs through grant writing and soliciting donations, and build organizational infrastructure to support literacy programs.

Secondary Data: Research

Data and information on the educational levels of clients as well as the issues surrounding access to education provide a framework for helping to move people from poverty into self-sufficiency. It has been shown that low income children who attend Head Start are more likely to graduate from high school and attend college (National Center for Children in Poverty).

Schools

Boone County

The enrollment in Boone County Schools for the 2012-2013 school year was **4,547** students. This is a decrease from the previous year's enrollment of 4,553 students. Of the students currently enrolled, 50.67% are considered low income. This is lower than the state average of 51.38%. The average class size is 18.8 students with an attendance rate of 97.61% and a dropout rate of 3.1%. (WV Department of Education, 2014). Private schooling can be found at the Christina Faith Academy.

Post-secondary education is available at Boone County Technical Center and Southern WV Community & Technical College.

The Boone County public school system has includes the following schools. (WV Dept. of Education, 2014)

Fayette County Educational Attainment age 25 and older

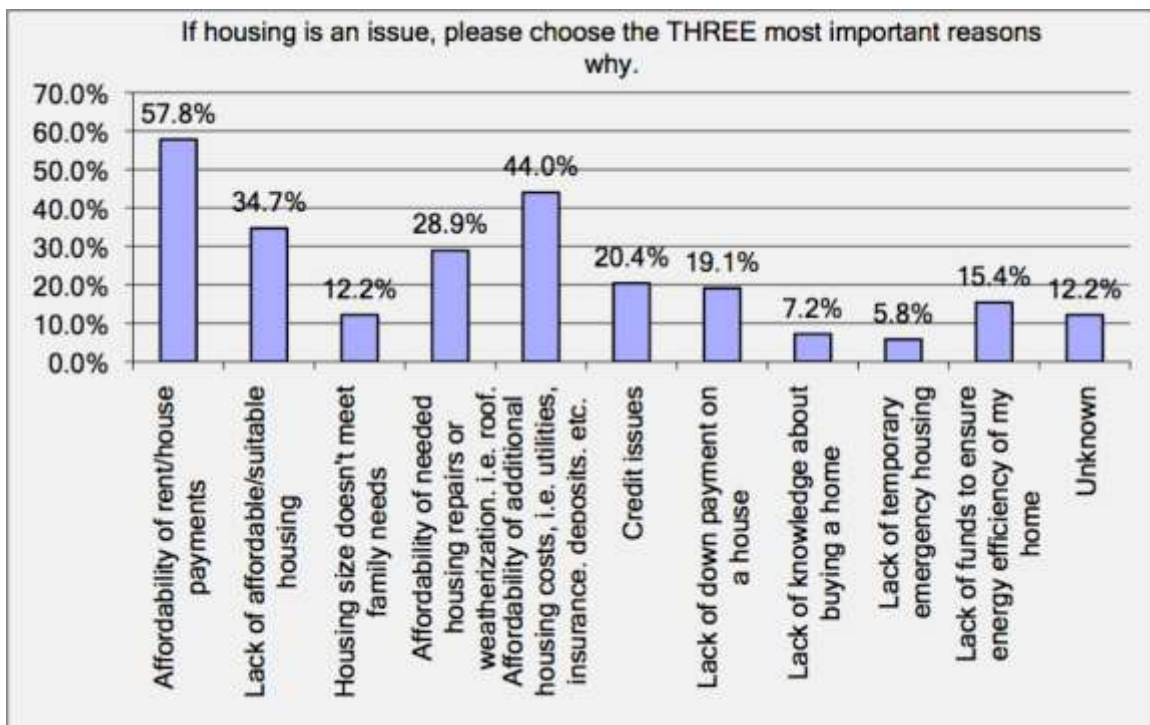

POVERTY INDICATOR: HOUSING

Primary Data: Survey Results

The Needs Assessment Survey asked the basic question, *is **housing** an issue for you and/or your family*. Of the 1,400 individuals who answered the question, **23.0%** felt that housing was in fact an issue. In order to gain an understanding of the root causes of housing issues in the community, the Needs Assessment Survey provided the opportunity for respondents to identify WHY housing was an issue.

The top three reasons identified were:

- 1) Affordability of rent/house payments
- 2) Affordability of additional housing costs, i.e. utilities, insurance, deposits, etc.
- 3) Lack of affordable/suitable housing

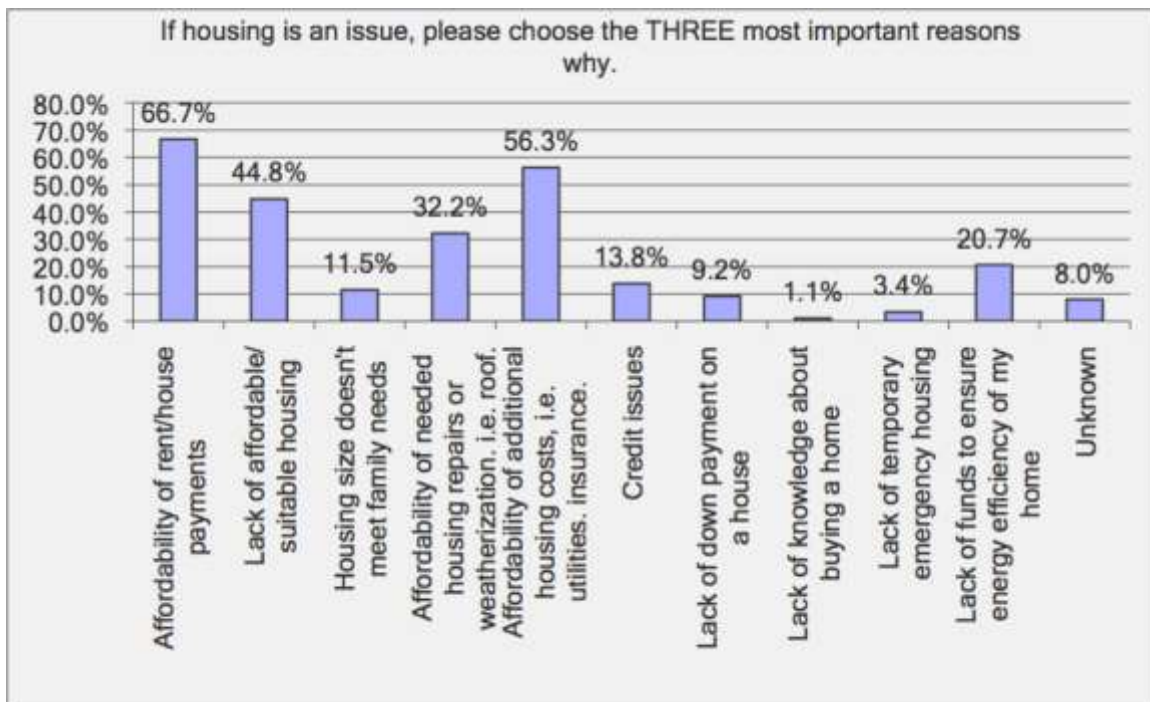

HOUSING Primary Data: Survey Results – BOONE COUNTY

The Needs Assessment Survey asked the basic question, *is **housing** an issue for you and/or your family*. **24.4%** of respondents in Boone County felt that housing was an issue.

The top three reasons identified were:

1. Affordability of rent/house payments
2. Affordability of additional housing costs, i.e. utilities, insurance, deposits, etc.
3. Lack of affordable/suitable housing

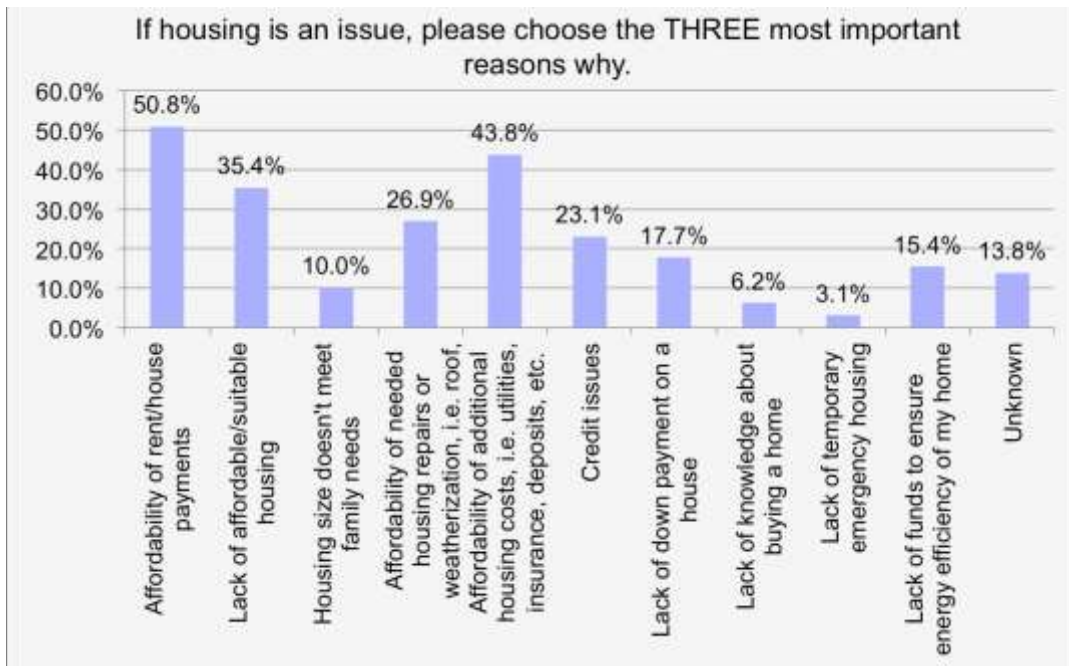

HOUSING Primary Data: Survey Results – CLAY COUNTY

The Needs Assessment Survey asked the basic question, *is **housing** an issue for you and/or your family*. **20.4 %** of respondents in Clay County felt that housing was an issue.

The top three reasons identified were:

1. Affordability of needed housing repairs or weatherization, i.e. roof, foundation, insulation, etc.
2. Lack of down payment on a house
3. Affordability of additional housing costs, i.e. utilities, insurance, deposits, etc.

HOUSING Primary Data: Survey Results – FAYETTE COUNTY

The Needs Assessment Survey asked the basic question, *is **housing** an issue for you and/or your family*. **28.6%** of respondents in Fayette County felt that housing was an issue.

The top three reasons identified were:

- 1) Affordability of rent/house payments
- 2) Affordability of additional housing costs, i.e. utilities, insurance, deposits, etc.
- 3) Lack of affordable/suitable housing

HOUSING Primary Data: Survey Results – KANAWHA COUNTY

The Needs Assessment Survey asked the basic question, *is **housing** an issue for you and/or your family*. **23.5%** of respondents in Kanawha County felt that housing was an issue.

The top three reasons identified were:

- 1) Affordability of rent/house payments
- 2) Affordability of additional housing costs, i.e. utilities, insurance, deposits, etc.
- 3) Lack of affordable/suitable housing

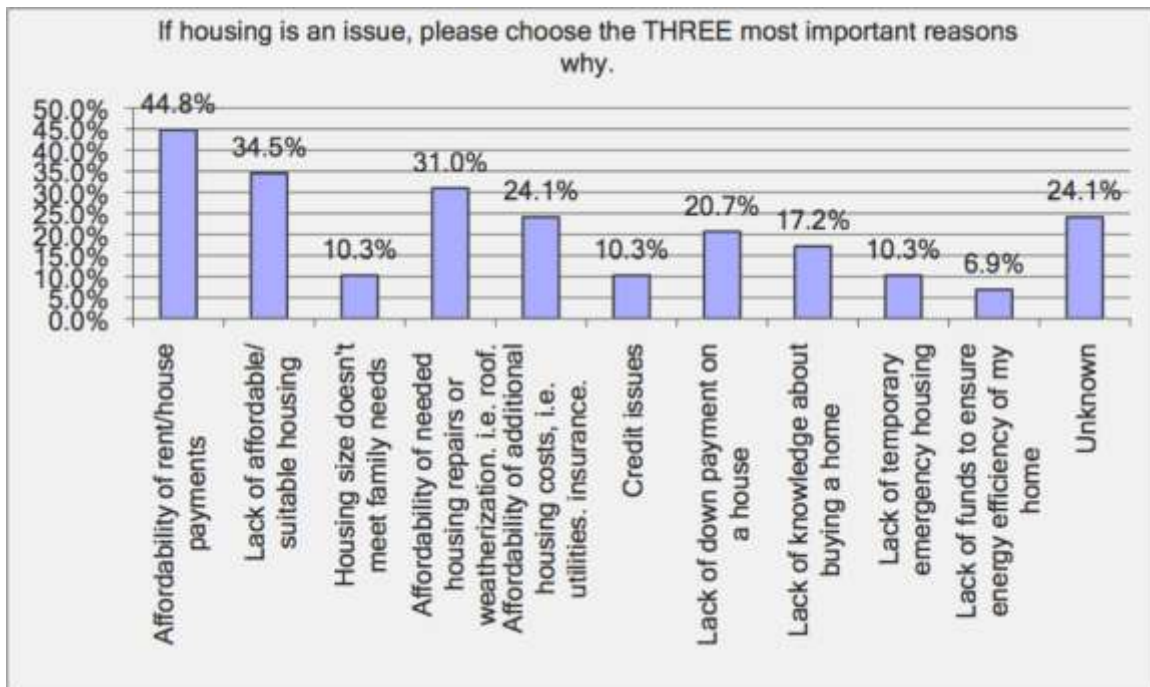

HOUSING Primary Data: Survey Results – PUTNAM COUNTY

The Needs Assessment Survey asked the basic question, *is **housing** an issue for you and/or your family*. **17.6 %** of respondents in Putnam County felt that housing was an issue.

The top three reasons identified were:

- 1) Affordability of rent/house payments
- 2) Lack of affordable/suitable housing
- 3) Affordability of needed housing repairs or weatherization, i.e. roof, foundation, insulation, storm windows, etc.

Participants Speak Out – Community Stakeholder Feedback

Is your agency addressing HOUSING issues in your community and if so, how?

- **EnAct** – We offer rent and utility assistance if the qualified individual or family has an eviction notice or termination of service notice. We are not able to pay the full amount, but can work with the individual or family in getting the past due amount paid.
- **Fayette County FRN** - We work with organizations that address housing issues. However, there are so many needs that organizations are often overwhelmed.
- **Charleston Police Dept.** – We are developing a new program to address housing issues.
- **Prestera Center** - We have a homeless outreach program, short term shelter housing, and aftercare housing for recovering addicts.
- **United Way of Central WV** - Provides fuel assistance; budget counseling; rental assistance; housing for homeless women and children; and emergency food, clothing and shelter by funding agencies that provide these services. These programs help to give our area residents basic needs and to keep families together in times of economic crisis. LifeBridge Vet Corps engages military veterans in service to provide comprehensive services to individuals in their communities who are transitioning from homelessness to permanent housing so that they can support themselves and avoid becoming homeless again in the future. Members support military veterans and other adults in the community through peer mentoring, employment and skills training, information and referral service and financial literacy services. Vet Corps members receive extensive training to meet the community needs and to meet their own personal and professional goals.

Secondary Data: Research

Finding affordable housing (both rental and available for homeownership) continues to be a challenge for many Americans. Safe, decent, sanitary and affordable housing provides not only shelter for families, but stabilization for children, and in cases of homeownership—the ability for individuals and families to build and retain an asset for the future.

Occupancy and Home Value

Attainable housing is defined as housing that is in a safe and acceptable condition and does not financially burden a family. Federal government guidelines, primarily those developed by the U.S. Department of Housing and Urban Development (HUD), define attainable housing as housing that costs a homeowner or renter no more than 30% of the household's gross monthly income. This figure includes mortgage payments, home insurance, taxes, homeowner association and/or condominium fees, and utilities.

Geographic Area	Total Housing Units	Median Year Built	Median Age (in 2012)
Boone County	11,125	1979	33
Clay County	4,599	1981	31
Fayette County	21,647	1965	47
Kanawha County	92,679	1965	47
Putnam County	23,426	1983	29
West Virginia	882,240	1973	39
United States	131,642,456	1975	37

Geographic Area	Occupied Housing Units	Housing Units without Plumbing	Percent without Plumbing
Clay County	11,125	109	1.12
Boone County	4,599	27	0.78
Fayette County	21,647	90	0.51
Kanawha County	92,679	414	0.50
Putnam County	23,426	82	0.39
West Virginia	882,240	5,019	0.68
United States	2,172,647	9,528	0.52

US CENSUS, 2014

Putnam County has the highest median home value at \$141,900. This is higher than the state average of \$97,300. Fayette County has the lowest median home value at \$70,900.

	Median Home Value
Boone County	\$78,100
Clay County	\$81,900
Fayette County	\$70,900
Kanawha County	\$100,100
Putnam County	\$141,900
West Virginia	\$97,300

US Census, 2014

Rentals

About 27% of all West Virginia households – or 201,500 households – are renters. Federal rental assistance programs enable more than 36,300 low-income households in West Virginia to rent modest housing at an affordable cost. About 58% of these households are headed by people who are elderly or have disabilities; approximately 31% are families with children. (Center on Budget & Policy Priorities, 2013)

Federal programs reach only a small share of the low-income West Virginia households that pay unaffordable rental housing costs and are therefore at increased risk of homelessness and other types of housing instability:

- In West Virginia, 41,000 low-income renter households pay more than half their monthly cash income for housing costs. On average, these households have incomes of \$790 and pay housing costs of \$710, leaving only \$80 to pay for other necessities. About 41% of these cost-burdened renters are elderly or people with disabilities, while 27% are families with children.
- When housing costs consume more than half of household income, low-income families are at greater risk of becoming homeless. Point-in-time surveys suggest that at least 2,200 people are homeless in West Virginia.(Center on Budget & Policy Priorities, 2013)

The following charts contain the Fair Market Rents for Boone, Clay, Fayette, Kanawha, and Putnam Counties. Fair Market Rents (FMRs) are estimates of rental housing costs in local housing markets that the U.S. Department of Housing and Urban Development (HUD) prepares using rent survey data to serve as the basis for determining the maximum subsidy levels in the Housing Choice Voucher program. In general, FMRs are set at the 40th percentile rent i.e., the dollar amount which allows voucher-holders access to 40 percent of standard quality rental units. Adjustments are made

to exclude public housing units, newly built units and substandard units. (U.S. Department of Housing and Urban Development, 2013)

County	2014 FAIR MARKET RENT (\$/month)				
	BR 0	BR 1	BR 2	BR 3	BR 4
Boone County	423	426	573	714	854
Clay County	539	605	721	949	1075
Fayette County	398	443	573	768	795
Kanawha County	539	605	721	949	1075
Putnam County	539	605	721	949	1075

According to the 2013 Assets & Opportunities Scorecard, 72.3% of West Virginia households are homeowners.

POVERTY INDICATOR: HEALTH

Primary Data: Survey Results

The Needs Assessment Survey asked the basic question, *is **health** an issue for you and/or your family*. Of the 1,050 individuals who answered the question, **28.8%** felt that health was in fact an issue. In order to gain an understanding of the root causes of health issues in the community, the Needs Assessment Survey provided the opportunity for respondents to identify WHY health was an issue.

The top three reasons identified were:

1. Lack of dental services
2. Lack of vision services
3. Affordability of prescription drugs

HEALTH Primary Data: Survey Results – BOONE COUNTY

The Needs Assessment Survey asked the basic question, *is **health** an issue for you and/or your family*. **24.2%** of respondents in Boone County felt that health was an issue.

The top three reasons identified were:

1. Lack of dental services
2. Lack of vision services
3. Affordability of prescription drugs

HEALTH Primary Data: Survey Results – CLAY COUNTY

The Needs Assessment Survey asked the basic question, *is **health** an issue for you and/or your family*. **39.4 %** of respondents in Clay County felt that health was an issue.

The top three reasons identified were:

1. Lack of vision services
2. Lack of dental services
3. Lack of healthcare providers in the

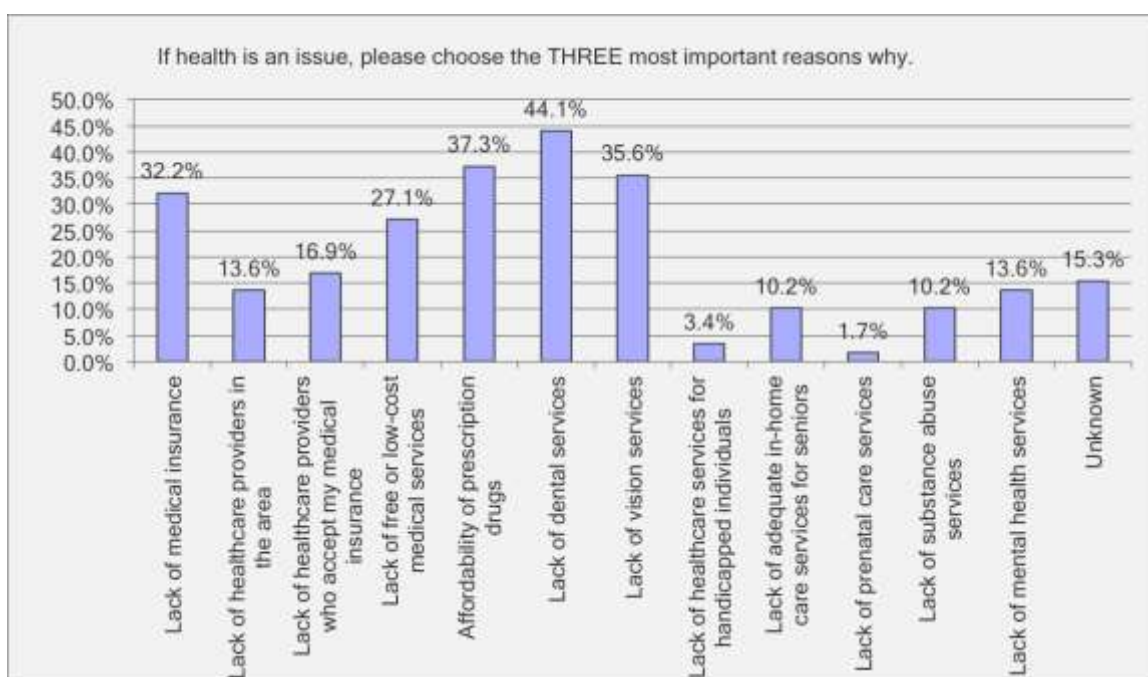

HEALTH Primary Data: Survey Results – FAYETTE COUNTY

The Needs Assessment Survey asked the basic question, *is **health** an issue for you and/or your family.* **41.8%** of respondents in Fayette County felt that health was an issue.

The top three reasons identified were:

4. Lack of dental services
5. Lack of vision services
6. Affordability of prescription drugs

HEALTH Primary Data: Survey Results – KANAWHA COUNTY

The Needs Assessment Survey asked the basic question, *is **health** an issue for you and/or your family*. **26.0%** of respondents in Kanawha County felt that health was an issue.

The top three reasons identified were:

1. Lack of dental services
2. Lack of vision services
3. Affordability of prescription drugs

HEALTH Primary Data: Survey Results – PUTNAM COUNTY

The Needs Assessment Survey asked the basic question, *is **health** an issue for you and/or your family*. **26.0 %** of respondents in Putnam County felt that health was an issue.

The top three reasons identified were:

1. Affordability of prescription drugs
2. Lack of dental services
3. Lack of free or low-cost medical services

Participants Speak Out - Community Stakeholder Feedback

Is your agency addressing HEALTH issues in your community and if so, how?

- **EnAct** – We routinely offer free blood pressure screens throughout the year.
- **Salvation Army Boys & Girls Club of Charleston WV** - We have a social services department which directs those with health issues to service providers in the city. We also teach many mental & physical health education classes for our students.
- **Fayette County Family Resource Network** - On a very local level, we have formed a Living Well Workgroup - initiatives include walking groups, lunch and learns (healthy eating, stress reduction), diabetes classes (Dining with Diabetes, Chronic Disease Self Management Program). Most of these programs are offered to county employees, health department staff, and board of education central office staff. Mount Hope has a Mt Hope on the Move initiative; Fayetteville has a Girls on the Run initiative.
- **Charleston Police Department** - With the Drug Marketing Intervention Program the B Listers are going to be given resources with a new partner.
- **WV DHHR** - We provide Medical card, CHIP or other health insurance options to provide access to medical care.
- **Regional Family Resource Network** - We work with various organizations to address a range of health topics, from substance abuse prevention to healthy pregnancy for young soon-to-be mothers.
- **Upper Kanawha Valley Starting Points Family Resource Center** - We track immunization and healthy child check up information. Also, with our prenatal clients we track doctors appointments and provide reminders about when check ups are due. We also provide information to reduce ER visits through educational materials and other resources.
- **Prestera Center** - Mental health and substance abuse services are provided, and now a focus on wellness is incorporated throughout all programs.
- **United Way of Central WV** - Helps provide programs that address the needs for mental health services to adults and youth, substance abuse prevention and support services, dental and health care for the uninsured, counseling and education for victims of sexual and domestic violence, as well as those facing end-of-life issues by funding agencies that provides these services. United Way of Central WV also has sponsored programs that address health issues. AmeriCorps*VISTA (Volunteers In Service to America), located in 12 counties in West Virginia, is part of a tradition of service and represents America at its best: making a sustainable impact, while promoting values of community, responsibility, and opportunity. Members recruit community volunteers to provide sustained reading opportunities for children, provide parent/child enrichment activities, and provide educational information for families in the areas of health, fitness, and nutrition.

Secondary Data: Research

Those struggling in poverty, as well as many families moving out of poverty, find it difficult at times to find available and affordable healthcare options.

County Health Rankings

Many health factors shape our communities' health outcomes. We know that much of what influences our health happens outside of the doctor's office—in our workplaces, schools and neighborhoods. The following information is from the **County Health Rankings & Roadmaps** program. This program looks at health statistics across the nation to help communities create solutions that make it easier for people to be healthy in their own communities, focusing on specific factors that we know affect health, such as education and income. Rankings illustrate what we know when it comes to what's making people sick or healthy (*County Health Rankings & Roadmaps, 2012*).

The chart below focuses on **health behaviors, clinical care**, and the **physical environment**. It also measures two types of health outcomes to show how healthy the county is: how long people live (mortality) and how healthy people feel (morbidity). Below are the results for Boone, Clay, Fayette, Kanawha and Putnam Counties in the state of West Virginia.

	Boone County	Clay County	Fayette County	Kanawha County	Putnam County	West Virginia

POVERTY INDICATOR: NUTRITION

Primary Data: Survey Results

The Needs Assessment Survey asked the basic question, *is **nutrition** an issue for you and/or your family*. Of the 1372 individuals who answered the question, **26.5%** felt that nutrition was in fact an issue. In order to gain an understanding of the root causes of nutrition issues in the community, the Needs Assessment Survey provided the opportunity for respondents to identify WHY nutrition was an issue.

The top three reasons identified were:

1. Not enough income to cover food cost
2. Not eligible for food stamps
3. Lack of transportation, i.e. to grocery store, food pantry or other food resources

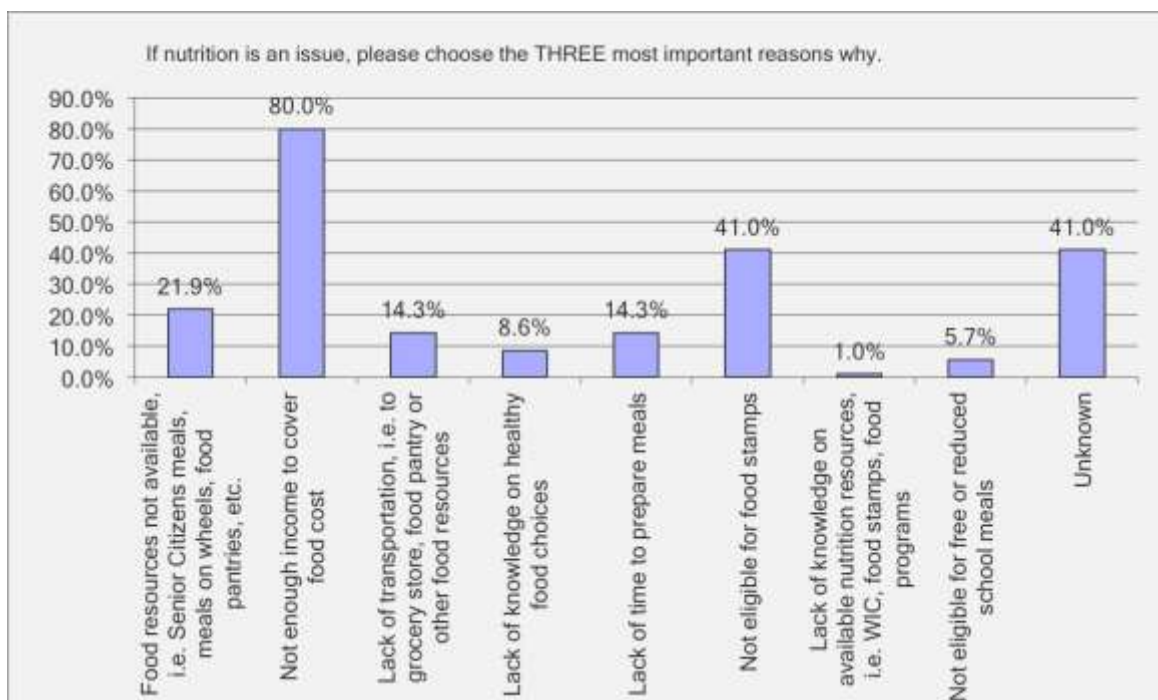

NUTRITION Primary Data: Survey Results – BOONE COUNTY

The Needs Assessment Survey asked the basic question, *is **nutrition** an issue for you and/or your family.* **30.7%** of respondents in Boone County felt that nutrition was an issue.

The top three reasons identified were:

1. Not enough income to cover food
2. Not eligible for food stamps
3. Unknown

Primary Data: Survey Results – CLAY COUNTY

The Needs Assessment Survey asked the basic question, *is **nutrition** an issue for you and/or your family.* **28.3%** of respondents in Clay County felt that nutrition was an issue.

The top three reasons identified were:

1. Not enough income to cover food cost
2. Lack of knowledge on healthy food choices
3. Lack of transportation, i.e. to grocery store, food pantry or other food resources

NUTRITION Primary Data: Survey Results – FAYETTE COUNTY

The Needs Assessment Survey asked the basic question, *is **nutrition** an issue for you and/or your family*. **38.9%** of respondents in Fayette County felt that nutrition was an issue.

The top three reasons identified were:

1. Not enough income to cover food cost
2. Not eligible for food stamps
3. Lack of transportation, i.e. to grocery store, food pantry or other food resources

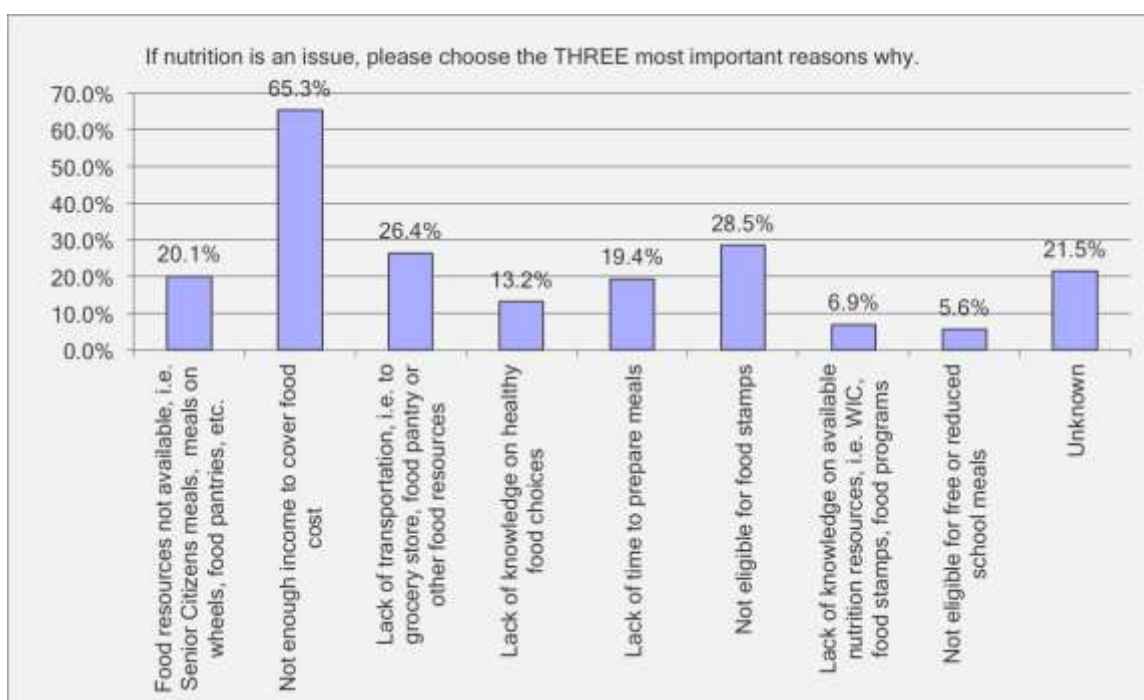

NUTRITION Primary Data: Survey Results – KANAWHA COUNTY

The Needs Assessment Survey asked the basic question, *is **nutrition** an issue for you and/or your family*. **22.6%** of respondents in Kanawha County felt that nutrition was an issue.

The top three reasons identified were:

1. Not enough income to cover food cost
2. Not eligible for food stamps
3. Lack of transportation, i.e. to grocery store, food pantry or other food resources

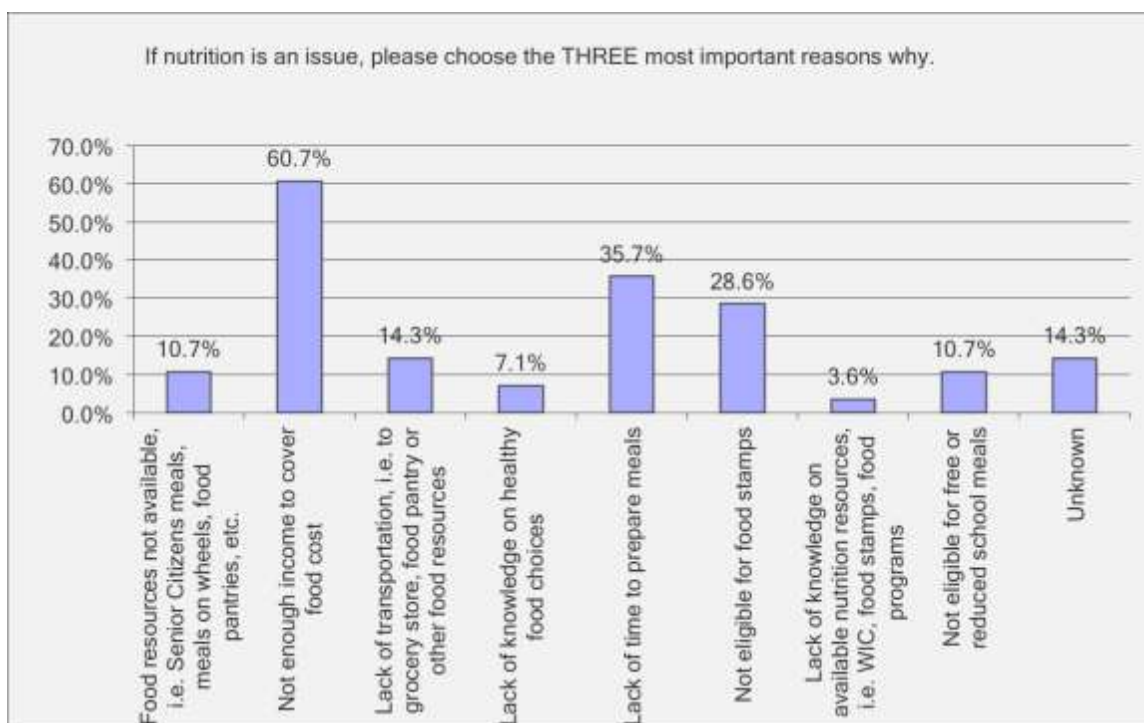

NUTRITION Primary Data: Survey Results – PUTNAM COUNTY

The Needs Assessment Survey asked the basic question, *is **nutrition** an issue for you and/or your family*. **19.2%** of respondents in Putnam County felt that nutrition was an issue.

The top three reasons identified were:

1. Not enough income to cover food cost
2. Lack of time to prepare meals
3. Not eligible for food stamps

Participants Speak Out - Community Stakeholder Feedback

Is your agency addressing NUTRITION issues in your community and if so, how?

- **EnAct** – We operate food pantries which include USDA Commodity foods. Distributions are made on a monthly basis and emergency situations are addressed on a case by case basis.
- **Salvation Army Boys & Girls Club of Charleston WV** - We serve dinners each night for our students, which consist of low fat, healthy entrees. We are trying to promote healthy foods in our club in hopes the students will go home & encourage their parents to eat healthy also.
- **Fayette County FRN** - On a very local level, we have formed a Living Well Workgroup - initiatives include walking groups, lunch and learns (healthy eating, stress reduction), diabetes classes (Dining with Diabetes, Chronic Disease Self Management Program). Most of these programs are offered to county employees, health department staff, and board of education central office staff. Mount Hope has a Mt Hope on the Move initiative; Fayetteville has a Girls on the Run initiative.
- **Charleston Police Department** - Some of the B Listers work with a community garden.
- **Upper Kanawha Valley Starting Points Family Resource Center**- This is ongoing through home visits that provide educational materials. However, we also utilize the Healthy Lifestyle Curriculum and partner with the WVU Extension Service. Currently, we are holding eight weekly session on adult nutrition and will follow up with four weekly classes regarding child nutrition.
- **Prestera Center** – This is being addressed through new wellness initiatives incorporated through out all programs.
- **United Way of Central WV** - Provides fuel assistance; budget counseling; rental assistance; housing for homeless women and children; and emergency food, clothing and shelter by funding agencies that provide these services. These programs help to give our area residents basic needs and to keep families together in times of economic crisis. United Way of Central WV also has sponsored programs that address nutrition issues. AmeriCorps*VISTA (Volunteers In Service to America), located in 12 counties in West Virginia, is part of a tradition of service and represents America at its best: making a sustainable impact, while promoting values of community, responsibility, and opportunity. Members recruit community volunteers to provide sustained reading opportunities for children, provide parent/child enrichment activities, and provide educational information for families in the areas of health, fitness, and nutrition.

Secondary Data: Research

Nutrition Secondary Data

Good nutrition, physical activity, and a healthy body weight are essential parts of a person's overall health and well-being. Together, these factors can help decrease a person's risk of developing serious health conditions, such as high blood pressure, diabetes, heart disease, high cholesterol, stroke, and cancer. A healthful diet, regular physical activity, and achieving

and maintaining a healthy weight also are important to managing health conditions so they do not worsen over time. (Healthy People, 2013)

Most Americans do not eat a healthful diet and are not physically active at levels needed to maintain proper health. Fewer than 1 in 3 adults and an even lower proportion of adolescents eat the recommended amount of vegetables each day. The majority of adults (81.6%) and adolescents (81.8%) do not get the recommended amount of physical activity. As a result of these behaviors, the country has experienced a dramatic increase in obesity. Today, approximately 1 in 3 adults (34.0%) and 1 in 6 children and adolescents (16.2%) are obese. (Healthy People, 2013)

According to the Centers for Disease Control (CDC), during the past 20 years, there has been a dramatic increase in obesity in the United States and rates remain high. In 2011, no state had an obesity rate of less than 20%. Twelve states had a rate higher than 30% and West Virginia was one of those states with an obesity rate of 32.4%. West Virginia has the 3rd highest obesity rate in the United States. (Centers for Disease Control, 2013)

Boone County

The obesity rate in Boone County is 37.4%. This is higher than the state average of 32.5%. According to the 2013 County Health Rankings, Boone county is ranked 47th in regards to their Diet and Exercise rates of WV Counties.

There are 7 grocery stores located in or near Boone County.

There are 5 food pantries located in Boone County.

- Boone Mission
- Catholic Charities of Boone County
- Madison Baptist Church
- Prayer Connection
- Racine Baptist Church

According to the 2013 West Virginia KIDS COUNT Fund data book, the number of children approved for free and reduced-priced school meals has remained the same. In 2005, 58.8% of children were eligible and in 2012 the percentage was 61.4%.

Clay County

The obesity rate in Clay County is 32.8%. This is slightly higher than the state average of 32.5%. According to the 2013 County Health Rankings, Clay county is ranked 52th in regards to their Diet and Exercise rates of WV Counties.

There is one grocery store located in Clay County. There are two food pantries located in the county: Risen Lord Catholic Church and Clay Christian Center.

According to the 2013 West Virginia KIDS COUNT Fund data book, the number of children approved for free and reduced-priced school meals has decreased. In 2005, 74.4% of children were eligible and in 2012 the percentage was 94.1%.

Fayette County

The obesity rate in Fayette County is 30.9%. This is lower than the state average of 32.5%. According to the 2013 County Health Rankings, Fayette county is ranked 31st in regards to their Diet and Exercise rates of WV Counties.

There are 12 grocery stores located in or near Fayette County.

There are 7 food pantries located in Fayette County.

- Fayetteville Baptist Church
- Good News Outreach Mission
- Heart N Hand
- Meadow Bridge United Methodist Church
- Montgomery Presbyterian Church
- Oak Hill United Methodist Church
- Page Baptist Church

According to the 2013 West Virginia KIDS COUNT Fund data book, the number of children approved for free and reduced-priced school meals has remained the same. In 2005, 63.4% of children were eligible and in 2012 the percentage was 68.5%.

Kanawha County

The obesity rate in Kanawha County is 28.3%. This is lower than the state average of 32.5%. According to the 2013 County Health Rankings, Kanawha County is ranked 12^h in regards to their Diet and Exercise rates of WV Counties.

There are 12 grocery stores located in or near Kanawha County.

There are 17 food pantries located in Kanawha County.

WVDHHR Obesity Report, 2013

POVERTY INDICATOR: USE OF INCOME

Primary Data: Survey Results

The Needs Assessment Survey asked the basic question, ***is use of income an issue for you and/or your family.*** Of the 1,372 individuals who answered the question, **31.1%** felt that use of income was in fact an issue. In order to gain an understanding of the root causes of use of income issues in the community, the Needs Assessment Survey provided the opportunity for respondents to identify WHY use of income was an issue.

The top three reasons identified were:

1. Lack of knowledge on how to save/invest money
2. Lack of knowledge about money management, i.e. credit card debt, budgeting, checking accounts, etc.
3. Lack of knowledge about addressing credit issues.

USE OF INCOME Primary Data: Survey Results – BOONE COUNTY

The Needs Assessment Survey asked the basic question, *is **use of income** an issue for you and/or your family.* **18.6%** of respondents in Boone County felt that use of income was an issue.

The top three reasons identified were:

1. Unknown
2. Lack of knowledge on how to save/invest money
3. Lack of knowledge about money management, i.e. credit card debt, budgeting, checking accounts, etc.

USE OF INCOME Primary Data: Survey Results – CLAY COUNTY

The Needs Assessment Survey asked the basic question, *is **use of income** an issue for you and/or your family.* **21.9%** of respondents in Clay County felt that use of income was an issue.

The top three reasons identified were:

1. Lack of knowledge on how to save/invest money
2. Lack of knowledge about money management, i.e. credit card debt, budgeting, checking accounts, etc.
3. Lack of knowledge about addressing credit issues

USE OF INCOME Primary Data: Survey Results – FAYETTE COUNTY

The Needs Assessment Survey asked the basic question, *is **use of income** an issue for you and/or your family.* **31.3%** of respondents in Fayette County felt that use of income was an issue.

The top three reasons identified were:

1. Lack of knowledge about addressing credit issues
2. Lack of knowledge on how to save/invest money
3. Lack of knowledge about possible resources, i.e. food stamps, medical coverage, etc.

USE OF INCOME Primary Data: Survey Results – KANAWHA COUNTY

The Needs Assessment Survey asked the basic question, *is **use of income** an issue for you and/or your family.* **20.0%** of respondents in Kanawha County felt that use of income was an issue.

The top three reasons identified were:

1. Lack of knowledge on how to save/invest money
2. Lack of knowledge about money management, i.e. credit card debt, budgeting, checking accounts, etc.
3. Lack of knowledge about addressing credit issues

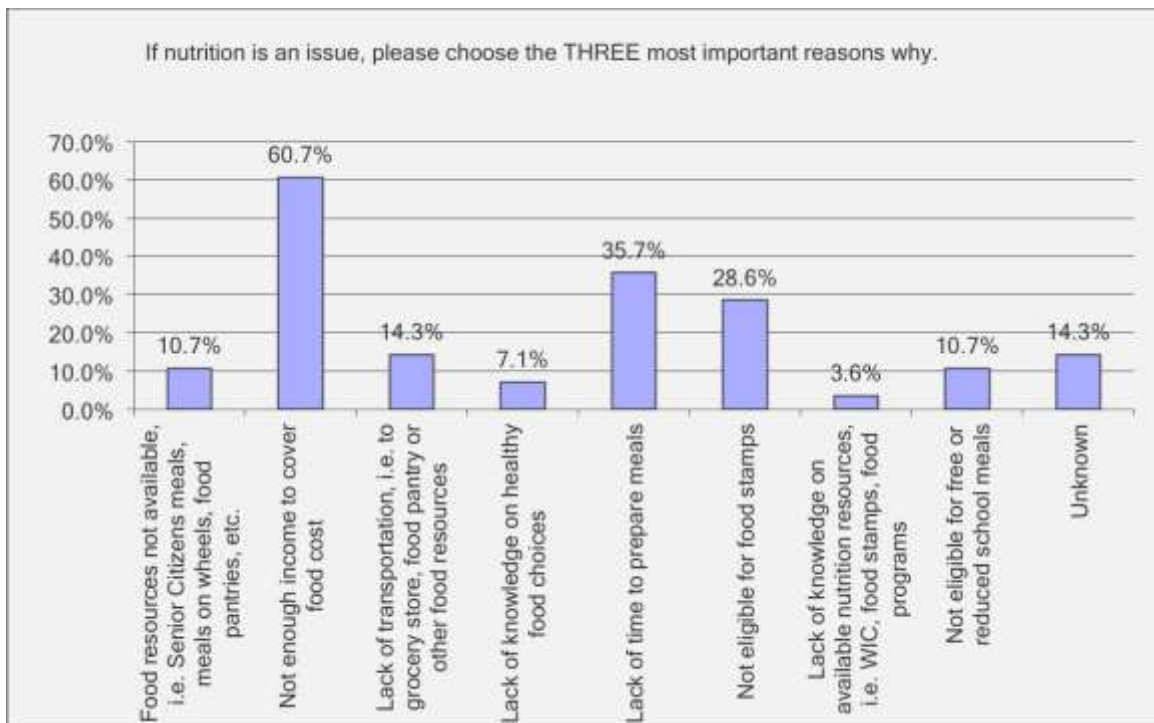

USE OF INCOME Primary Data: Survey Results – PUTNAM COUNTY

The Needs Assessment Survey asked the basic question, *is **use of income** an issue for you and/or your family.* **13.6%** of respondents in Putnam County felt that use of income was an issue.

The top three reasons identified were:

1. Lack of knowledge on how to save/invest money
2. Lack of knowledge about money management, i.e. credit card debt, budgeting, checking accounts, etc.
3. Lack of knowledge about addressing credit issues

Participants Speak Out - Community Stakeholder Feedback

Is your agency addressing USE OF INCOME issues in your community and if so, how?

- **EnAct** - We offer free budgeting counseling and Money Matters classes.
- **Salvation Army Boys & Girls Club of Charleston WV** - We have financial literacy classes for our teenagers a couple times a year. Many of these classes are taught by local bankers.
- **Fayette County FRN** - The FRN supports and participates in the Reality Store - a WVU Extension program that introduces middle and high school students into the real life of economics through a simulation - participants are given randomly chosen jobs and family formulations and then must navigate taxes, housing, transportation, utilities, clothing, food, child care, banking, insurance, etc.
- **Charleston Police Dept.** - With the Drug Marketing Intervention Program the B Listers attend money management classes through KISRA.
- **United Way of Central WV** - Provides fuel assistance; budget counseling; rental assistance; housing for homeless women and children; and emergency food, clothing and shelter by funding agencies that provide these services. These programs help to give our area residents basic needs and to keep families together in times of economic crisis.

Secondary Data: Research

All Americans face challenges relative to use of income. As a society, we are constantly bombarded with commercials wanting to sell us the latest and greatest. Those with low incomes are not the only persons facing a crisis in money management with debt spiraling and costs of health care and other items rising. In fact, many Americans are living one paycheck away from financial crisis. The foundation for reaching the American Dream rests on two pillars: first, a family's ability to build assets that can be used to invest for the future, send children to college, and weather unexpected financial storms; and second, safety nets and safeguards that provide financial security in the event of a job loss, medical emergency, or other life events that could otherwise put a family in a tailspin. The information a community can gather on use of income can help an agency think about services which can lead individuals to build their safety net and eventually achieve many goals.

Participants Speak Out – Community Stakeholder Feedback

Is your agency addressing TRANSPORTATION issues in your community and if so, how?

- **EnAct** - We are a provider for MTM transporting Non-Emergency Medical transportation customers.
- **WV DHHR** - I am presenting to the commission of Putnam county to see if we can get a mass transit bus system started in Putnam county, as we often hear from our clients that transportation is their biggest barrier.
- **Prestera Center** - Transporting Prestera clients to appointments, assisting with bus passes.

Secondary Data: Research

Transportation is a key component to a person's ability to obtain employment, an education and access to medical treatment.

Public transportation (excluding taxicab)	40	0.2%
Walked	160	0.6%
Other means	34	0.1%
Worked at home	975	2.8%
Mean travel time to work (minutes)	25.5	

POVERTY INDICATOR: EMERGENCY SITUATIONS

Primary Data: Survey Results

The Needs Assessment Survey asked respondents to *choose the 3 most important **emergency situations** that seem to be particular problems in this area.* 1,243 individuals answered the question and selected the following as the top three problems.

The top three problems identified were:

1. Alcohol, drug abuse and/or gambling
2. Lack of income for utilities/fuel
3. Lack of food

Other, please specify:

- Unknown-X
- Constant flooding in the area we live
- Recover center
- Lost jobs-XXXXXXXXXX
- Dental
- Availability of complimentary healthcare providers-X
- No driver's license due to previous fines
- Lack of substance abuse for families need rehabilitation services
- Drug effects on children
- Education/teachers
- People don't want to help other people! They only care for themselves! We all need to work together to help other and better out community!

- Need to move due to house repair problems and landlord won't fix that is a year old that are hazardous problems. And no money to move because of deposit and paying people to move furniture.
- Rehab services for people with addictions
- Auto insurance is so high that I cannot afford to pay rent for a place of my own! Based on my income where my husband is. Currently receiving unemployment benefits I can only afford to pay my car payment and insurance and help the household we share with another with bills and food which is very hard to make it from week to week
- Lack of employment opportunities-XX
- Lack of decent housing (rental)
- Too many people that can work receive assistance and when people

that work and pay into the system for years cannot receive help due to their assets, which the person has worked to pay for.

- Teens in our area have nothing to do and are found w/too much time on their hands especially when the single parent works 12-14 hours daily.
- Not being able to get credit to buy a home that is handicapped accessible for my child and also our car we have, we are having a hard time getting her wheel chair in it.
- All of the above
- Lack of incentive to work
- Transportation
- Afraid of being out of a job at my age
- Lack of funds to fix up housing, roof, floors, ramps, etc.
- Lack of facilities for youth, lack of or non-existing educational daycare facilities.

Primary Data: Survey Results – BOONE COUNTY

The top three problems identified were:

1. Alcohol, drug abuse and/or gambling
2. Lack of income for utilities/fuel
3. Lack of emergency shelter, i.e. due to fire, flood, eviction, domestic violence, etc.

Other, please specify:

- People don't want to work.
- There is a lack of recreation, like a YMCA for our youth.
- Unemployment
- No local emergency rooms
- Our County Commission, won't let anyone come in to this county that could benefit us.
- Lack of initiative
- Question #7... The choice selections are bad
- Lack of police enforcement –XX
- Use of income question does not have the proper answer options
- Need more options on Use of income question answer: lack of income to cover expenses of everyday living
- Doctors writing prescription medications and patients abusing them. Leaving their children with family members to care for
- Lack of jobs (for those who chose to work) especially as the coal industry
- Lack of public transportation
- On question #8... It is due to a lack of income not a lack of knowledge!

continues to suffer. Abuse of the system is another huge problem in our area. Many receive food stamps, WIC, etc. who are not truly in need or qualified, just see it as ""free money"" and a reason to not strive to do better.

- The sheer number of lazy, do-less people that won't get off of their rear
- Lack of education
- Drugs
- Education- the children need more resources to prepare them for life after graduation and the skills to be able to go to college or trade school. Too many kids in our county see parents who get welfare and social security checks and grow up to be the same. We need to teach these kids that education is the right way to lead oneself to a wonderful productive life that let's them contribute to the betterment of our communities and country. Let's teach these kids about how hard work is best.
- Transportation for disabled
- Layoffs
- Lack of jobs that pay a living wage

ends to get a job or would rather stay stoned on drugs all the time and their unwillingness to contribute in any meaningful way to society in general will attempt to steal everything and anything they can get their hands on.

Primary Data: Survey Results – CLAY COUNTY

The top three problems identified were:

1. Alcohol, drug abuse and/or gambling
2. Lack of income for utilities/fuel
3. Lack of food

Other, please specify:

- People don't want to work.
- There is a lack of recreation, like a YMCA for our youth.
- Unemployment
- No local emergency rooms
- Our County Commission , won't let anyone come in to this county that could benefit us.
- Lack of initiative

Primary Data: Survey Results – FAYETTE COUNTY

The top three problems identified were:

1. Alcohol, drug abuse and/or gambling
2. Lack of income for utilities/fuel
3. Lack of food

Other, please specify:

- Vehicle problems
- #9 is a joke" Need responsive police
- Lack of children's services. Teaching parents to be responsible parents.
- Lack of Nutritious Food
- People are lazy and want to live off the system.
- Lack of education - Poor education system in Fayette County - no one seems to want to change.
- Infrastructure: Water, sewer, roads, and access to broad band providers.
- Significant lack of childcare

Primary Data: Survey Results – KANAWHA COUNTY

The top three problems identified were:

1. Alcohol, drug abuse and/or gambling
2. Lack of income for utilities/fuel
3. Lack of food

Other, please specify:

- Lack of funds for housing repairs
- I live alone. Would like some kind of check in to see if I'm Still alive.
- Retired
- Don't know – XX
- Lack of jobs and job training
- Unknown - new to area
- Violence
- Lack of job opportunities – X
- Young adults are have a sense of entitlement and are not motivated to get a job. Drug use, alcohol, gambling all are contributors.
- I got a Master's degree and all its debt and was promptly demoted so I quit. State hired me back for less money than I made. Defaulted on loan. Loan sharks don't care if I eat or have money for Christmas gifts for others and seem to prefer me dead.
- Lack of Jesus Christ
- Prostitution
- Jobs with income adequate for families
- No issues

- Industrial chemicals in our water, Local responders ill prepared and uninformed, Uncoordinated, dishonest responses from state and federal gov't officials.
- Truthfully all of the above effect most people in some way
- Lack of water
- None apply – X
- This statement doesn't make sense.
- Weakening of families
- People who just do not want to work for a living. Know several personally.
- Industrial threats to our water supply
- Too many people with disabilities - epilepsy, drugs, retardation, and lack of good work habits.
- People unwilling to work and make their own opportunity.
- Lack of maintenance of industrial and transportation systems (like Freedom Industries)
- Job offerings that pay reasonable living wages.
- Kids in peril from inadequate parenting, drugs & alcohol, no boundaries
- Lack of clean water
- Safe drinking water and timely response to emergency issues. i.e. the recent water crisis
- Issues with paying nursing home costs and losing personal property to pay for it.
- Education/awareness
- Crime
- Utilities

Primary Data: Survey Results – PUTNAM COUNTY

The top three problems identified were:

1. Alcohol, drug abuse and/or gambling
2. Lack of income for utilities/fuel
3. Lack of food

Other, please specify:

- No good doctors here
- Dysfunctional social security office
- Knowledge of community services available
- Abuse of welfare system
- **Transportation**
- Too many people on public assistance that don't want to work even if it were available to them.
- Nothing
- **Jobs**
- Inadequate financial resources for teenagers who are having children creating an emergency situation for the child or children being born.
- **Activities for children**

Participants Speak Out – Community Stakeholder Feedback

Is your agency addressing EMERGENCY SITUATION issues in your community and if so, how?

- **EnAct** - We offer rent and utility assistance if the qualified individual or family has an eviction notice or termination of service notice. We are not able to pay the full amount, but can work with the individual or family in getting the past due amount paid.
- **Fayette County FRN** - The FRN constantly receives requests for utility assistance. Unfortunately, resources are limited. DHHR is the first line of contact for referral to assistance (cut off/termination notices) - many folks have exhausted their eligibility by the time they call.
- **United Way of Central WV** - Provides fuel assistance; budget counseling; rental assistance; housing for homeless women and children; and emergency food, clothing and shelter by funding agencies that provide these services. These programs help to give our area residents basic needs and to keep families together in times of economic crisis. Information and Referral at United Way of Central WV is a resource you want to remember if you are looking for affordable housing, quality day care, utility assistance, or if you are dealing with a personal crisis, struggling with addiction, or seeking help with an aging parent. Information and Referral maintains a database of community resources for Boone, Clay, Kanawha, and Putnam counties. While the office does not provide direct assistance, the staff will assist you in finding the best services available to meet your needs. The service is free, fast, and confidential. Information and Referral also oversees the annual Christmas Bureau, which was established to coordinate the efforts of the community in its holiday giving, assists with the Charleston Daily Mail's "Neediest Cases" and is a partner with WV 211, the statewide Information and Referral.

The West Virginia State Police Department reports the following crime statistics in the following in their 2011 Annual Report:

Type of Call	Boone County (Madison)	Clay County (Clay)	Fayette County (Gauley Bridge)	Kanawha County (South Charleston)	Putnam County (Winfield)
Calls for Service	2,985	1,665	610	8,522	2,218
Felony Arrests	680	109	20	773	368
Misdemeanor Arrests	881	253	46	1,024	454
Hazardous Moving Violations (HVM) Citations	1,566	1,425	320	4,211	1,810
HVM Warnings	3,908	1,769	856	9,891	2,666
DUI	21	32	2	61	43
Motorist Assists	232	357	66	1,378	284
Crash Reports	146	77	25	201	82
Major Incidents	1,006	350	173	2,344	669
Investigation Offenses	1,915	607	219	4,343	1,386

(WV State Police, 2013)

The West Virginia **Bureau of Behavioral Health and Health Facilities** (BHFF) is the designated host agency for the State Epidemiological Outcomes Workgroup (SEOW), a project funded by the Substance Abuse and Mental Health Services Administration (SAMHSA). The SEOW was assembled to lead the statewide systematic process to gather, review, analyze, translate, and disseminate information about substance use and abuse and mental health in West Virginia. The following data has been developed based upon the most current and available data on substance use and its related consequences (Boone, Clay, Fayette, Kanawha, and Putnam County Behavioral Health Profiles, 2013).

- Boone County ranks 10th in the state by the prevalence of cigarette smoking.
- Clay County ranks 42nd in the state by the prevalence of cigarette smoking.
- Fayette County ranks 12th in the state by the prevalence of cigarette smoking.
- Kanawha County ranks 34th in the state by the prevalence of cigarette smoking.
- Putnam County ranks 51st in the state by the prevalence of cigarette smoking.

- Boone County ranks 40th in the state by the prevalence of binge drinking.
- Clay County ranks 53rd in the state by the prevalence of binge drinking.
- Fayette County ranks 20th in the state by the prevalence of binge drinking.
- Kanawha County ranks 19th in the state by the prevalence of binge drinking.
- Putnam County ranks 43rd in the state by the prevalence of binge drinking.

Many types of prescription drugs are abused. Currently there is a growing, deadly epidemic of prescription painkiller abuse in West Virginia and across the country. In the US, nearly three out of four prescription drug overdoses are caused by prescription painkillers also called opioid painkillers. West Virginia has seen a **rise in prescription drug overdose deaths of nearly 230% since 2001.**

More than 12 million people reported using prescription painkillers non-medically across the US in 2010, that is, using them without a prescription or for the feeling they cause.

- Boone County ranks 21st in the state by the prevalence of suicides.
- Clay County ranks 3rd in the state by the prevalence of suicides.
- Fayette County ranks 9th in the state by the prevalence of suicides.
- Kanawha County ranks 22nd in the state by the prevalence of suicides.
- Putnam County ranks 28st in the state by the prevalence of suicides.

ADDITIONAL KEY INDICATORS: Children's Needs

Primary Data: Survey Results

The top three unmet children's needs identified were:

1. Safe, suitable forms of recreation
2. Money to properly provide for children's physical needs, i.e. food, clothing, shelter
3. Summer activities for children

Primary Data: Survey Results – BOONE COUNTY

The top three unmet children's needs identified were:

1. Safe, suitable forms of recreation
2. Money to properly provide for children's physical needs, i.e. food, clothing, shelter
3. After school programs

Primary Data: Survey Results – CLAY COUNTY

The top three unmet children's needs identified were:

1. Safe, suitable forms of recreation
2. Money to properly provide for children's physical needs, i.e. food, clothing, shelter
3. Summer activities for children
4. Money to afford childcare/daycare

Primary Data: Survey Results – FAYETTE COUNTY

The top three unmet children's needs identified were:

1. Safe, suitable forms of recreation
2. Money to properly provide for children's physical needs, i.e. food, clothing, shelter
3. Summer activities for children
4. Money to afford childcare/daycare

Primary Data: Survey Results – KANAWHA COUNTY

The top three unmet children's needs identified were:

1. Money to properly provide for children's physical needs, i.e. food, clothing, shelter
2. Safe, suitable forms of recreation
3. Money to afford childcare/daycare

Primary Data: Survey Results – PUTNAM COUNTY

The top three unmet children's needs identified were:

1. Money to properly provide for children's physical needs, i.e. food, clothing, shelter
2. Summer activities for children
3. Safe, suitable forms of recreation

Participants Speak Out – Community Stakeholder Feedback

Is your agency addressing CHILDREN'S NEEDS issues in your community and if so, how?

- **EnAct** - We offer the Right From The Start program throughout our service area. Right From The Start is a home visitation program that provides education, service coordination, and support for low-income pregnant women and children up to age one in Kanawha County. Home visits and telephone calls are made by EnAct staff to maintain contact and support. Service coordination is provided by making sure families have the things they need and linking them to community agencies in their area. Education is provided through the Partners for a Healthy Baby curriculum and DVDs. All education materials are provided from the program.
- **Salvation Army Boys & Girls Club of Charleston WV** - Our Boys & Girls club exists to help children needs in our city.
- **Fayette County FRN** - The FRN works in collaboration with DHHR and Just for Kids - a Child Advocacy Center, and the Women's Resource Network.
- **Charleston Police Dept.** - We are working on a new program with the juvenile curfew laws. We will partner to get the children and families necessary resources.
- **WV DHHR** - Everything we do is geared with the children's needs in mind from Social Services to SNAP and Medicaid.
- **Regional FRN** - We receive a Partners in Prevention Grant in Putnam County in order to address child abuse. Through that grant, the RFRN provide a program called Brain Under Construction Zone to new mothers on how to promote healthy brain development. Elements of this program are also taught in other existing programs, such as Kindermusik. Additionally, the RFRN has created a Young Child Collaborative that meets every 2-3 months in order to work together and learn from other organization that deal with young children.
- **Upper Kanawha Valley Starting Points Family Resource Center** - We provide this service at our baby pantry located at Chesapeake City Hall. We have clothing sizes NB to 5, diapers, food, books, toys, etc.
- **Prestera Center** - Prestera is providing services to children and families through out the catchment area.
- **United Way of Central WV** - The foundation for the Adolescent Health Initiative(AHI) is the fundamental and scientific principle that the more Developmental Assets young people experience and the more Developmental Relationships they have, the less likely they are to engage in a wide range of risky behaviors. The more they experience these assets and relationships the more likely they are to engage in positive behaviors. The Adolescent Health Initiative sees young men and women as vital resources in our community. AHI is proactive about building strengths, encouraging personal responsibility, respecting youth as actors in their own development, offering a consistent message about what is important and offering hope. The Regional Teen Institute (TI) is held each summer in June at Camp Rippling Waters. (near Sissionville) TI is for students currently in grades 6 and 8 from Boone, Clay, Kanawha, and Putnam counties. Students participate in the week-long event, with students in grades 9-12 serving as youth staff. The goal of TI is capacity building by encouraging teens to build leadership skills, make healthy decisions and develop Action Plans to take back to their

community. This is accomplished through developing a supportive environment to help youth make these decisions, through a lot of fun activities and making new friends.

STEP THREE: Analyze Data

As part of a one-day debriefing retreat with the Needs Assessment Steering Committee that took place on October 28, 2014, Kingery & Company presented primary and secondary data of each key poverty issue. Using a paired comparison technique, county representatives (EnAct staff and external stakeholder representatives) analyzed the information presented and prioritized the issues that are in **most** need in their community.

Boone County

1. Emergency Situations
2. Employment
3. Health

Clay County

1. Employment
2. Transportation
3. Use of Income

Fayette County

1. Emergency Situations
2. Use of Income
3. Health

Kanawha County

1. Employment
2. Use of Income
3. Housing

Putnam County

1. Emergency Situations
2. Transportation
3. Housing

Entire Region

1. Health
2. Employment
3. Use of Income

After the retreat, the steering committee continued to focus on the priority issues per county by discussing how EnAct could improve current programs, add programs or partner with other organizations to better meet the needs of Boone, Clay, Fayette, Kanawha, and Putnam County residents. County representatives were then tasked with developing a **Plan of Action** that included identification of the **Greatest Challenge, Barriers** and **Goals** for the priority issues for Boone, Clay, Fayette, Kanawha, and Putnam County.

County Action Plans

BOONE COUNTY ACTION PLAN

Issue #1: EMERGENCY SITUATIONS

What's our goal? Three strategies that could be taken to make a positive impact on this issue.

- a. Increase or build recovery/rehabilitation facilities.
- b. Build recovery/rehabilitation facilities.
- c. Establish job retraining opportunities for out of work miners.

Issue #2: EMPLOYMENT

What's our goal? Three strategies that could be taken to make a positive impact on this issue.

- a. Provide job retraining opportunities for out of work miners.
- b. Offer incentives from county level for businesses to come to/build in the county.
- c. Refocus growth outside of the mining industry.

Issue #3: HEALTH

What's our goal? Three strategies that could be taken to make a positive impact on this issue.

- a. Offer incentives for dental practices to locate within the county.
- b. Offer incentives for vision practices to locate within the county.
- c. Offer prescription drug assistance programs.

CLAY COUNTY ACTION PLAN

Issue #1: EMPLOYMENT

What's our goal? Three strategies that could be taken to make a positive impact on this issue.

- a. Assist with starting small businesses in the area.
- b. Train families or individuals to work from home.
- c. Provide incentives to businesses to locate in distressed communities and hire local people.

Issue #2: TRANSPORTATION

What's our goal? Three strategies that could be taken to make a positive impact on this issue.

- a. Work with KRT to establish a daily route on Rt. 4 from Charleston to Clay.
- b. Assist Clay Development in purchasing a third van and hire a driver for additional routes.
- c. Work with the judicial system with individuals that have lost their license for unpaid tickets.

Issue #3: USE OF INCOME

What's our goal? Three strategies that could be taken to make a positive impact on this issue.

- a. Teach money and credit management in the classroom, and provide incentives for students to save.
- b. Partner with banks to lower starting balances for setting up savings accounts. Provide incentives for saving.
- c. Increase the number of participants enrolled in financial management and home buyer education classes.

FAYETTE COUNTY ACTION PLAN

Issue #1: EMERGENCY SITUATIONS

What's our goal? Three strategies that could be taken to make a positive impact on this issue.

- a. Provide intensive case management for wrap-around services: credit, budgeting, parenting, cooking, etc.
- b. Develop substance abuse prevention programs for the community.
- c. Increase the tobacco tax to fund other programs, such as above.

Issue #2: USE OF INCOME

What's our goal? Three strategies that could be taken to make a positive impact on this issue.

- a. Provide intensive case management for wrap-around services: credit, budgeting, parenting, cooking, etc.
- b. Coordinate savings/credit workshops through local banks and financial institutions.
- c. Provide savings/credit education in high schools – could be provided by local banks.

Issue #3: HEALTH

What's our goal? Three strategies that could be taken to make a positive impact on this issue.

- a. Promote use of dental cleaning facilities at Bridge Valley CTC.
- b. Increase awareness of services and resources available within the communities, such as school-based health centers.
- c. Increase the availability of vision services.

KANAWHA COUNTY ACTION PLAN

Issue #1: EMPLOYMENT

What's our goal? Three strategies that could be taken to make a positive impact on this issue.

- a. Bring in plants and big businesses. Offer tax incentives to bring them in, and attract them by marketing to big businesses.
- b. Case management to help find open jobs and follow up with the client for one year.
- c. Encourage apprenticeships and internships.

Issue #2: USE OF INCOME

What's our goal? Three strategies that could be taken to make a positive impact on this issue.

- a. Develop financial education class in all high schools, freshmen at college or community classes.
- b. Enact penalties for predatory lenders and unrealistic contracts.
- c. Help citizen distinguish between and prioritize basic needs and wants.

Issue #3: HOUSING

What's our goal? Three strategies that could be taken to make a positive impact on this issue.

- d. Renovate or build senior housing. Give a tax break for people who give older buildings.
- a. Increase safety in local neighborhoods.
- b. Incorporate youth programs, community programs and senior housing. Example: community gardens.

PUTNAM COUNTY ACTION PLAN

Issue #1: EMERGENCY SITUATIONS

What's our goal? Three strategies that could be taken to make a positive impact on this issue.

- a. Build rehabilitation facilities.
- b. Provide addiction support classes.
- c. Increase awareness of local resources.

Issue #2: TRANSPORTATION

What's our goal? Three strategies that could be taken to make a positive impact on this issue.

- a. Develop public transportation – particularly bus services.
- b. Provide credit counseling services for purchasing automobiles.
- c. Develop an income-based repair service.

Issue #3: HOUSING

What's our goal? Three strategies that could be taken to make a positive impact on this issue.

- a. Build more affordable housing on the southern end of the county for rental or ownership.
- c. Develop low-income housing or HUD approved homes.
- d. Provide an income-based handyman service.

REGIONAL ACTION PLAN

Issue #1: HEALTH

What's our goal? Three strategies that could be taken to make a positive impact on this issue.

- a. Establish additional adult dental clinics in rural communities.
- b. Increase incentives for providers to accept Medicaid to recruit additional providers.
- c. Work with higher education programs to provide services (including dentures) for free.
- d. Educate the communities about additional resources such as HealthRight, and the prescription card Family Wise.

Issue #2: EMPLOYMENT

What's our goal? Three strategies that could be taken to make a positive impact on this issue.

- a. Increase agencies who will provide free or low-cost job training, such as Goodwill.
- b. Expand WV Works to ensure more people are in the workforce, which may become permanent.
- c. Implement a governmental mechanism to identify and attract new businesses to WV to have a sustainable income level.

Issue #3: USE OF INCOME

What's our goal? Three strategies that could be taken to make a positive impact on this issue.

- a. Incorporate money management into middle and high school curriculums.
- b. Incorporate financial education into programs provided by emergency services.

STEP FOUR: Take Action

A Community Needs Assessment report explains the process, identifies the people involved, succinctly presents primary and secondary data, includes an analysis of the results and concludes with overall recommendations on how best EnAct can meet the needs of Boone, Clay, Fayette, Kanawha and Putnam Counties. This report serves as the final written report.

The report is where it all comes together to tell the needs assessment story that **captures the process, results and action plans**. The report that you are reading now provides a succinct record of the four step process: 1-Develop a plan; 2-Collect data; 3-Analyze results; and 4-Take action.

The final report was shared with the Needs Assessment Steering Committee in advance of the public release. Steering Committee members were asked to share the report with their own organizations and other groups in an effort mobilize community resources to address needs beyond that of EnAct. Although EnAct spearheaded the needs assessment project, the agency considers the report the '**community's report**'. Results will be shared in a news release and electronic copies will be made available upon request. In addition, the report will be incorporated into the next agency-wide strategic planning process.

APPENDIX A: EnAct Community Needs Assessment Survey

1. Please circle the appropriate response under each demographic heading.

<u>AGE</u>	<u>GENDER</u>	<u>ETHNIC BACKGROUND</u>	<u>NUMBER IN HOUSEHOLD</u>
12 – 17	Male	White	1
18 – 23	Female	Black/African American	2
24 – 44		American Indian and Alaska Native	3
45 – 54		Asian	4
55 – 69		Native Hawaiian and Other Pacific Islander	5
70 & older		Other	6
		Multi-Race (any 2 or more of the above)	7 or more

<u>HOUSEHOLD TYPE</u>	<u>SOURCES OF HOUSEHOLD INCOME (Choose all that apply.)</u>	<u>MONTHLY HOUSEHOLD INCOME</u>
Single Parent/Female	Wages or Salary	Less than \$100
Single Parent/Male	Contract Work	\$100 - \$250
Two Parent Household	Pension or retirement benefits	\$251 - \$500
Single Person	Social Security	\$501 - \$750
Two Adults/No children	Workers' Compensation or other disability	\$751 - \$1,000
Multifamily	Odd jobs	\$1,001 - \$1,500
	TANF	\$1,501 - \$2,000
	Farming	\$2,001 +
	I do not work/receive any benefits.	I do not know how much my parents/guardians make.

<u>HIGHEST LEVEL OF EDUCATION IN YOUR HOUSEHOLD. (Choose ONE)</u>	<u>WHAT COUNTY DO YOU LIVE IN?</u>
<input type="checkbox"/> Elementary School	<input type="checkbox"/> Middle/Junior High School
<input type="checkbox"/> High School/GED	<input type="checkbox"/> Some College
<input type="checkbox"/> Trade School	<input type="checkbox"/> Associates Degree
<input type="checkbox"/> Bachelor's Degree	<input type="checkbox"/> Graduate/Professional

2. Is Employment an issue for you and/or your family? ☐ YES ☐ NO

If yes, choose the THREE most important reasons why:

- | | |
|--|---|
| <input type="checkbox"/> Lack of education to obtain a job | <input type="checkbox"/> Lack of training to obtain a job |
| <input type="checkbox"/> Lack of employment opportunities | <input type="checkbox"/> Lack of good-paying jobs with benefits |
| <input type="checkbox"/> Lack of reliable transportation | <input type="checkbox"/> Lack of child care (work-related) |
| <input type="checkbox"/> Lack of resume/job application/interview skills | <input type="checkbox"/> Cost of child care (work-related) |
| <input type="checkbox"/> Unknown | |

3. Is Education an issue for you and/or your family? ☐ YES ☐ NO

If yes, choose the THREE most important reasons why:

- | | |
|--|---|
| <input type="checkbox"/> Lack of vocational skills or training | <input type="checkbox"/> Lack of transportation (school-related) |
| <input type="checkbox"/> Lack of GED/Adult Education Classes | <input type="checkbox"/> Lack of child care (school-related) |
| <input type="checkbox"/> Availability and/or location of classes | <input type="checkbox"/> Poor communication with teachers, principals, counselors |
| <input type="checkbox"/> Threats of violence in schools | <input type="checkbox"/> Unknown |
| <input type="checkbox"/> Lack of dropout prevention for youth | |
| <input type="checkbox"/> Lack of computer access at home | |

4. Is Housing an issue for you and/or your family? _____ **YES** _____ **NO**

If yes, choose the THREE most important reasons why:

- | | |
|--|---|
| <input type="checkbox"/> Affordability of rent/house payments | <input type="checkbox"/> Credit issues |
| <input type="checkbox"/> Lack of affordable/suitable housing | <input type="checkbox"/> Lack of down payment on a house |
| <input type="checkbox"/> Housing size doesn't meet family needs | <input type="checkbox"/> Lack of knowledge about buying a home |
| <input type="checkbox"/> Affordability of needed housing repairs, i.e. roof, foundation, insulation, storm windows, etc. | <input type="checkbox"/> Lack of temporary emergency housing |
| <input type="checkbox"/> Affordability of additional housing costs, i.e. utilities, insurance, deposits | <input type="checkbox"/> Lack of funds to ensure energy efficiency of my home |
| | <input type="checkbox"/> Unknown |

5. Is Health an issue for you and/or your family? _____ **YES** _____ **NO**

If yes, choose the THREE most important reasons why:

- | | |
|---|--|
| <input type="checkbox"/> Lack of medical insurance | <input type="checkbox"/> Lack of healthcare services for handicapped individuals |
| <input type="checkbox"/> Lack of healthcare providers in the area | <input type="checkbox"/> Lack of adequate in-home care services for seniors |
| <input type="checkbox"/> Lack of healthcare providers who accept my medical insurance | <input type="checkbox"/> Lack of prenatal care services |
| <input type="checkbox"/> Lack of free or low-cost medical services | <input type="checkbox"/> Lack of substance abuse services |
| <input type="checkbox"/> Affordability of prescription drugs | <input type="checkbox"/> Lack of mental health services |
| <input type="checkbox"/> Lack of dental services | <input type="checkbox"/> Unknown |
| <input type="checkbox"/> Lack of vision services | |

6. Is Nutrition an issue for you and/or your family? _____ **YES** _____ **NO**

If yes, choose the THREE most important reasons why:

- | | |
|---|---|
| <input type="checkbox"/> Food resources not available, i.e. Senior Citizens meals, meals on wheels, food pantries, etc. | <input type="checkbox"/> Not eligible for food stamps |
| <input type="checkbox"/> Not enough income to cover food cost | <input type="checkbox"/> Lack of knowledge on available nutrition resources, i.e. WIC, food stamps, food programs |
| <input type="checkbox"/> Lack of transportation, i.e. to grocery store, food pantry or other food resources | <input type="checkbox"/> Not eligible for free or reduced school meals |
| <input type="checkbox"/> Lack of knowledge on healthy food choices | <input type="checkbox"/> Unknown |
| <input type="checkbox"/> Lack of time to prepare meals | |

7. Is Use of Income an issue for you and/or your family? _____ **YES** _____ **NO**

If yes, choose the THREE most important reasons why:

- | | |
|---|--|
| <input type="checkbox"/> Lack of knowledge about possible resources, i.e. food stamps, medical coverage, etc. | <input type="checkbox"/> Lack of knowledge about money management, i.e. credit card debt, budgeting, checking accounts, etc. |
| <input type="checkbox"/> Lack of knowledge on how to save/invest money | <input type="checkbox"/> Lack of interest in making appropriate use of income |
| <input type="checkbox"/> Lack of knowledge about addressing credit issues | <input type="checkbox"/> Lack of knowledge on how to get/enforce child support |
| <input type="checkbox"/> Lack of knowledge about tax credits | <input type="checkbox"/> Unknown |

8. Is Transportation an issue for you and/or your family? _____ YES _____ NO

If yes, choose the THREE most important reasons why:

- | | |
|---|---|
| <input type="checkbox"/> Lack of knowledge about available services | <input type="checkbox"/> Does not like to rely on others for transportation |
| <input type="checkbox"/> Lack of knowledge about buying a vehicle | <input type="checkbox"/> Lack of public transportation |
| <input type="checkbox"/> Lack of credit to buy a vehicle | <input type="checkbox"/> Do not own a vehicle/No access to a vehicle |
| <input type="checkbox"/> Cost of owning and operating a vehicle | <input type="checkbox"/> Unknown |
| <input type="checkbox"/> Lack of valid driver's license | |
| <input type="checkbox"/> Lack of help learning to drive/getting a license | |

9. The following are Emergency Situations that may be particular problems in this area.

Choose the THREE most important reasons:

- | | |
|--|--|
| <input type="checkbox"/> Lack of food | <input type="checkbox"/> Alcohol, drug abuse and/or gambling |
| <input type="checkbox"/> Access to medical emergency resources, not covered by insurance | <input type="checkbox"/> Lack of income for utilities/fuel |
| <input type="checkbox"/> Lack of emergency shelter, i.e. due to fire, flood, eviction, domestic violence, etc. | <input type="checkbox"/> No health insurance |
| <input type="checkbox"/> Access to mental health services | <input type="checkbox"/> Legal Assistance |
| <input type="checkbox"/> Lack of income for prescription drugs | <input type="checkbox"/> Lack of health care providers- local services |
| | <input type="checkbox"/> Losing/Lost Home |
| | <input type="checkbox"/> Other: _____ |

10. Choose the three most important unmet children's needs in your community.

- | | |
|--|---|
| <input type="checkbox"/> Live in an unsafe area to raise children | <input type="checkbox"/> Money to properly provide for child's physical needs, i.e. food, clothing, shelter |
| <input type="checkbox"/> Money to afford childcare/daycare | <input type="checkbox"/> Knowledge about proper child nutrition in the home |
| <input type="checkbox"/> Early child education programs | <input type="checkbox"/> Money to provide for child's wants, i.e. video games, name brand clothing, activities with friends |
| <input type="checkbox"/> Knowledge about available childcare/daycare resources | <input type="checkbox"/> Family support in caring for children |
| <input type="checkbox"/> After school programs | <input type="checkbox"/> Unknown |
| <input type="checkbox"/> Adequate childcare/daycare facilities | |
| <input type="checkbox"/> Safe, suitable forms of recreation | |
| <input type="checkbox"/> Knowledge on childrearing methods | |
| <input type="checkbox"/> Summer activities for children | |

THANK YOU!!!!
